THE COVER

Coed Gloria Anderson, whose photograph by Dana Vibberts appears on this issue of the magazine, is a sophomore from Dayton. A history and government major in the College of Arts and Sciences, she also is a cheer leader, a member of the 1960 Homecoming court, and a floor chairman at Scott Quadrangle.

THE OHIO ALUMNUS is published monthly in October, November, December, January, March, April, May & June by the Ohio University Alumni Association. The annual subscription rate of \$4.00 includes membership in The Ohio University Alumni Association. Remittance should be made by check or money order payable to The Ohio University Alumni Association, P.O. Box 285, Athens. Entered as second class matter, October 3, 1923, at the post office at Athens, Ohio, under the Act of March 3, 1879. Printed at The Lawhead Press, Inc., Athens, Ohio.

They Help Themselves

More than 50 percent of OU's students
are earning half or more of their expenses

By JOANN CONOVER REISS

NEARLY a century ago a college student could live in a damp basement room, cook his meals on a hot plate, work long hours for low wages and barely put himself through college.

However . . . so degrading was this state of survival that most young people preferred not to go to college if their families could not afford it. College was financially for the elite.

Today, with the increased wages and jobs available, a college education is more accessible to all who desire it. A student can earn anywhere from a small portion to all of his college expenses and still maintain the high standards of housing and living set up by colleges and universities in recent years.

At this moment over 50 percent of the students at Ohio University are earning half or more of their expenses. Approximately 900 are working for the university as bus boys, library assistants, checkroom attendants, janitors or clerical assistants. These jobs net a student between \$300 and \$500 in one school year.

In the summer nearly every student today works. Jobs as office girl, waitress, camp counselor, construction worker or postal clerk pay anywhere from \$350 to \$1,000 over the three-month period.

Despite the abundance of university and summer jobs, a student's ingenuity remains a great source of jobs. In Athens, Ohio University students, like those of a century ago, have turned up markets for unique goods or services—for example, operating an ice cream truck or doing locksmith work.

Also numerous jobs are passed along from a graduating senior to an undergraduate friend in need. Only the student who is alert and keeps his ears open will find these jobs: for instance, the senior who repairs and coordinates all campus clocks, the girl who works as a nurse's aid for her room or the boy who is cook in the home of Ohio University President John C. Baker.

A student's personality has a great bearing on the type and amount of work he takes on during the school year. One

MARIANNE EVKOVICH, a junior in speech and hearing therapy, lives in the University Health Center and works as a nurse's aid for her room. She got wind of the opening there through a friend who was a nurse in the Health Center last year. Marianne spends her evenings on the job. In addition, she works during the day in the Ohio University Speech and Hearing Laboratory.

STEPHEN ROWLEY, a sophomore in mechanical engineering, is the only locksmith in the town of Athens. At the moment Steve's business is small, probably because he has only been on campus since fall, having attended the Martins Ferry branch his freshman year. Nevertheless, the returns of this business affords Steve with spending money. He has his G.I. bill which covers large expenses.

student may be able to hold two jobs and maintain them with a full class schedule, whereas another may have to cut his load to seven hours a week as phone operator in the dormitory. Each is working to his fullest capacity. The increasing costs of education permit no slackers in this area.

Because a student has to work it doesn't always mean he must limit the amount of extracurricular activities he participates in. In fact, a number of Ohio University's campus leaders are working! The editor of the OU Post, president of East Green Council and president of Omicron Delta Kappa, men's leadership and service honor society.

It appears the working student is the most active . . . and many times the best student.

There have been charges that today's students lean on financial aids, as scholarships and loans. Few if any US colleges will give financial assistance to a student unless he will WORK for a part of his needs. A cardinal principle of student financial assistance is: "The first means of support is self support."

Student financial aids are available for the student

who works and still comes short of cash. The Ohio University Student Financial Aids Office helped nearly 4,000 students in some way in 1959-60. This includes the 900 university jobs.

In percentages, 41 percent of the total enrollment, 7717, at Ohio University were given financial aid, allowing for 10 percent duplication in cases where a student may hold a loan and a board job.

The biggest financial help a student can receive is a loan. And, probably more people overlook the fact that a student is obligated to pay it back over a specified number of years after he graduates.

The student is not getting the money for free. He works for the money he uses, but in reverse . . . he uses it and then works for it. He must pay it back.

Today's student may look different outwardly in his sneakers, bulky sweater and kaki pants . . . but inwardly he is the same ambitious, hard working student of a century ago, striving to finance all or a good share of his own college education.

DAVID PEACH, a junior in commerce, manages to hold three jobs in addition to his position as president of East Green Council. When he's not calling a meeting of the council, he is working at the Gammertsfelder Hall switchboard, he's counseling some boys in his section of the dormitory as a paid counselor or he's working at mealtimes as a bus boy in the Shively Hall cafeteria.

JOHN DENT is cooking up his education. He is a full-time cook at the home of Ohio University President John C. Baker. Majoring in food technology John stumbled on the opening. He heard of it from Margaret Davis, director of residence services at OU, while he was consulting her on research work he was doing.

JOHN STALLARD, an Ohio University senior majoring in public relations, works an average of 7 hours a day selling ice cream, or hot chocolate depending on the season, to Athens' children, adults and Ohio University students. In addition, John and his wife, Sandra, sub-rent rooms in a large home they are renting themselves. John says they "break about even" with both of them going to school full time. They plan to graduate this June.

RONALD BELL, a senior in mathematics, offset the cost of his education last semester by being an assistant to mathematics instructor Mrs. Miriam R. LeBoutillier. His assistantship duties . . . grading papers, proctoring examinations and tutoring three hours a week . . . coupled with his responsibilities as president to J-Club, Omicron Delta Kappa and his fraternity, Phi Kappa Tau, gave him little "spare time."

LENNY WOLOWIEC, a senior in journalism, is a holder of two jobs . . . editor of the Athena yearbook and student assistant in charge of public relations for the Ohio University branches. In the latter job Lenny travels with Dean Albert C. Gubitz to the branches and edits a four-page paper. Married, Lenny also holds the vice-presidency in Omicron Delta Kappa, and is a member of J-Club and Sigma Chi fraternity.

GENE MAEROFF, another senior in journalism, is earning pay and experience as editor of the Ohio University Post. Financing his entire way through college, Gene also passes out samples as a representative for one of the major cigarette companies and picks up various odd jobs throughout the school year. He comments that his parents are upset because he HASN'T asked them for money.

CARL BARR, a senior in electrical engineering, will be passing along his job come June. Carl is employed as a part-time employee at Ohio University to repair and coordinate all university clocks. He spends from 1 to 10 hours a week making the rounds of all university buildings, checking the clocks with an accurate pocket watch.

University Roll Call

Some startling statistics provide a prediction for the growth of OU.

By Dr. Lee C. Soltow

PROFESSOR OF STATISTICS

IN 1880 a member of the Ohio University Board of Trustees said that the University enrollment would never be more than 500. It happens that this was the very period when the enrollment of Ohio University really began to grow.

It has been growing ever since and could conceivably reach more than 20,000 by 1975.

Ohio Population

The population of Ohio grew at a rapid rate from 45,000 in 1800 to 3,200,000 in 1880. It has grown at approximately a constant rate from 1880 to 10,000,000 in 1960.

The number of those of college age has not grown nearly as rapidly in the last 80 years. Total population has more than tripled while the college age group has perhaps surprisingly not even doubled.

(Continued on Next Page)

Quality can be maintained with increased enrollment

During this period the median age of Ohioans increased from 21 to 31 years as life expectancy increased from 40 years to over 70.

Thus, with longer life, the 18 to 21 year old group has decreased from 8.1 per cent of the total population in 1880 to 4.7 per cent in 1960.

This particular development has had a very important bearing on the burden of higher education in Ohio. For 80 years the number of college age students per Ohioans has become less. However, this trend will completely reverse itself after 1960.

The number of college age persons in Ohio will grow the same per cent or relative rate in the next 15 years that it grew in the last 80 years. This 86 per cent increase will be an absolute number twice as large for the 15 years as the previous 80 year period.

College Enrollment

The number of college students has increased in a spectacular fashion. In 1960 it was 30 times as large as in 1880. This has meant, of course, that a larger and larger per cent of the youth have been going to college.

The ratio of college students to 18-21 year olds is critical in making projections into the future. Briefly, it has increased from 2.2 per cent in 1880 to 37.0 in 1959. By 1975 it may well reach 53.0.

The increased percentage of students attending college need not cause a lowering of student quality standards. There are many able high school students not now going to college.

Ohio University Enrollment

Looking back at the history of Ohio University, it is interesting to note that the breaking point in enrollment came in 1880. Before this time, enrollment fluctuated between 50 and 100. After 1880 it began its long run trend increase.

It is fruitful to analyze fundamental changes that took place around 1880, in evaluating major shifts that might take place in the future. There are essentially four reasons:

(1) The state legislature started appropriating funds for Ohio University. The University no longer had to rely on rents from land and tuition.

(2) A railroad line came to Athens from Cincinnati in 1856, cutting the travel time from a day and a half to six hours. The line to Columbus was added after the Civil War.

(3) A teacher training program was introduced, bringing more students to the campus after 1879.

(4) A law enacted by the legislature in 1875 required trustees to demand and collect yearly rent on university lands, including improvements, not to exceed the state tax "Imposed on property of like description." Increased annual income had previously not been collected because trustees hesitated to alienate lease holders.

A generalization of the 1880 to 1960 Ohio University growth can be obtained by fitting a statistically determined line through the data. This line, which smooths out the irregularities, is shown in Exhibit 1.

The extrapolation of this line for the next 15 years gives values which are much too small. It is important to note that these data are based on the historical pace. As is explained below, Ohio University enrollment must increase appreciably more than at its past historical pace because there will be a percentage increase in the number of college age population in the next 15 years equivalent to that of the last 80 years.

What share of Ohio's future college enrollment will Ohio University have? Its share in the past, along with that in other state universities, has been increasing. Ohio University's share at 20 year intervals was: 1880, 1.3 per cent; 1900, 2.3 per cent; 1920, 3.4 per cent; 1940, 4.1 per cent; 1960, 5.4 per cent.

It is not unreasonable to assume that with its branches, Ohio University will take its full share of the increase. Projections are shown in Exhibit 1 assuming that Ohio University's enrollment will remain at 5.4 per cent of the total college enrollment in Ohio. The figures are thus based on the supposition that Ohio University will take its full share of the 15 year increase.

The data from 1945 to 1975 which are lightly boxed in Exhibit 1 for Ohio University have been magnified and presented in the separate chart, Exhibit 2. The magnitude of the possible figures is astounding. It can be seen that the projection B figure for 1975 is twice that of the indicated figure based on the past 80 year trend.

It is important that the projected figures be understood for what they are. They are based on (1) the fact that the 18-21 year old Ohio population will increase 86 per cent in the next 15 years, (2) the alternative assumptions of increased percentages of 18 to 21 olds going to college (these yield series A,B and C on the two charts), and (3) the assumption that the enrollment of Ohio University will remain a constant per cent of total Ohio college enrollment.

Ohio's Future Teachers

The educational cycle is not complete without consideration of the high school education of those who will go to college and those who will not go to college in the next 15 years.

Ohio University trained 800 who received teaching certificates in 1959. This is more than a 150 per cent increase in the last 20 years, and it is of extreme importance in insuring an adequate supply of manpower for future education.

But Ohio University faces the greatest challenge in its long history as the next 15 years promise enrollment increases exceeding those of the past 80 years.

EXHIBIT 1

Levels of Education Cycle

FIVE levels of the education cycle in Ohio are presented as time series in Exhibit 1. These are (1) the total Ohio population, (2) the 18 to 21 year old population or college age population, (3) the total number of college students in Ohio, (4) Ohio University enrollment, and (5) the number of new public school teachers who graduate from Ohio University.

For the order given, each of the levels is a subset of the preceding level. Thus in 1960, the number in the state is 10 million, 18-21 year olds is 480,000, college students 178,000, Ohio University enrollment including full time equivalent branch students 9,500, and teaching certificates approximately 800.

Dotted lines from 1960 to 1975 represent projection series shown in more detail in Exhibit 2.

Source of data: See the Report to the Ohio University Committee on Growth, 1960.

Basis for Projected Figures

IT IS important that the Ohio University projected figures be understood for what they are. They are based on:

1. The 18-21 year old Ohio population will increase 86 per cent in the next 15 years.

2. The ratio of college students to 18-21 year olds is critical in making projections. This ratio, which may be called the participation rate, was 2.2 percent in 1880, 3.3 in 1890, 3.2 in 1900, 4.3 in 1910, 8.4 in 1920, 14.5 in 1930, 17.6 in 1940, 33.9 in 1950, and 37.0 in 1959. The figure in 1950 is probably artificially high because of GI students. It will be noted that the increase in the ratio from 17 in 1940 to 37 in 1959 is one percentage point a year. The increase from 1920 to 1959 is approximately .75 of one percentage point a year and from 1880 to 1960 is about .4 of one percentage point a year.

Three possible projection series encompassing past participation rate increases in different periods are presented in Exhibit 2 for the years from 1960 to 1975. Series A is a projection with the participation rate increasing one percentage point a year, Series B is a projection with the participation rate increasing .5 of one percentage point and Series C is a projection with the participation rate remaining constant. From 1960 to 1975, enrollment increases 160 per cent in Series A, 124 per cent in Series B, and 86 per cent in Series C.

3. It is assumed that the enrollment of Ohio University will remain a constant per cent of total Ohio college enrollment. Ohio University figures include the full time equivalent of branch students.

EXHIBIT 2

Source of data: See the Report to the Ohio University Committee on Growth, 1960.

"As for the first day of N85Y, May 22, 1960, Larry towed the aircraft and carried a wing panel on top of his car while I followed in my car carrying a wing. Upon arrival at McKinley Airport, we found a group of Chapter 13 members waiting since we had set the 22nd as the first flight date about a week earlier."

THUS ENDS a story which began about two and a half years before, February of 1958.

Two men, close friends and fellow workers, put their heads together and with a set of assembly drawings started construction of a Corben "Baby Ace" sport plane.

One of these men was 1952 Ohio University graduate Joseph T. Benich. The other Florian E. "Larry" Spiewak.

Both work for the General Motors Air Transport Section in Detroit, Mich., and are members of the Experimental Aircraft Association, Chapter 13. They are aviation enthusiasts, flying every chance they get.

Sharing neighboring desks at work, the two men got to talking one day and, as Benich explains it, "We decided, why not build our own plane? We got the plans from the 1955 issues of *Mechanix Illustrated* magazine and turned the garage into a hangar."

Benich stresses, however, that they didn't "build a plane to get some cheap flying" but "to win workmanship awards."

And one look at the airplane will verify this. It has the sleek modern lines of any commercially-made plane, not the boxy, awkward look one would expect of a home built plane.

Finished in a bright red and white, the airplane is the high-wing, single-cockpit type. It weighs 640 pounds empty, has a wing span of 25 feet 9 inches, is 18 feet in length and 6 feet 7 inches in height.

Benich describes the plane as "a crowd-pleaser especially since the front page picture in the *Detroit News*." He says "We have had many comments regarding the workmanship and finish."

That first day of flight Benich found the airplane to be "very peppy, initially

SPIEWAK AND BENICH

Do-It-Yourself Aeronautics

right wing heavy and flying in a slight skid." He says, "After correcting this, it flew "hands off" at 2150 rpm, level flight."

Powered by a 65 hp Continental A-65-8F engine, the craft "has the 'big plane' feel on landing." Its maximum top speed is 110 mph, cruising speed 95 mph and landing speed 40 mph. The Federal Aviation Agency classified it as a "non-aerobatic" plane, which means all normal maneuvers are permitted including spins.

Building an airplane is one first for both men, but they are also credited with another first. They compiled the first maintenance and operating manual adapted to an amateur-built aircraft. The 50-page manual contains the plane's general description, history, specifications, construction details including sequential pictures and operating instructions.

Now that the plane is complete and air-worthy, both men have settled down to tackle a list of projects their wives have accumulated during the past two and a half years. Benich plans to build a hi-fi set for his wife, Anna Marie, and Spiewak says he's going to finish a miniature auto for his children.

Benich left Ohio University in 1952 with a bachelor's degree in commerce and an ROTC commission in the United States Air Force. In August of that same year he was stationed at Yuma Air Force Base in Arizona as a lieutenant.

Two years later he returned to OU for his master's degree in management. His thesis was "The Growth and Future of Business Aircraft Operations."

In November of 1955 he was employed by the GM Air Transport Section in Detroit as a management trainee under the assistant director. Two years later he was transferred to the engineering department of GMATS as a procedures writer and then in September, 1960 was transferred back to the office of the director as an administrative assistant, the position he presently holds.

Benich, his wife and their two children, Theresa Anne, 1½ years old, and Christopher Joseph, 4 months, live in Warren, Mich., a suburb north of Detroit.

As for the airplane? Benich reports that by October, 1960 they had approximately 75 flying hours and then dismantled it to store for the winter.

GEORGE FOSTER AND JOE MARSALKA

JUST OUTSIDE Worthington, Ohio, a stone's throw from the new north-south freeway, an unpretentious white house stands unnoticed by most motorists. Even the small sign, "RayData Corporation," in the front yard attracts little, if any attention.

But the wrapping belies the package. Inside, a group of men is busy turning ideas into electronic equipment that is opening up an entire new stage of automation.

Leading the group are three dynamic young men who challenge the future with an enthusiasm that is like a breath of pure oxygen. So infectious is their optimism that they impart no fragment of doubt concerning their future success.

George B. Foster, president, attended Harvard before World War II and later received an electrical engineering degree from the University of Illinois. Vice Presidents Joseph P. Marsalka and Charles F. Spademan, both graduated from Ohio University in 1950.

The story behind these men and the founding of their company is one that tingles the spine of all those romanticist who thrill to the triumph of imaginativeness.

A fast-moving story, it began little more than a year ago in Columbus. Foster already had established his reputation helping parlay an idea into a multi-million dollar business called Industrial Nucleonics. As vice president he could have settled back in comfort as his organization continued to grow.

But George Foster was not a man who could be content to retire on his laurels. A restless young genius who approaches electronics with the creativeness of an artist, he felt he "had at least one more company in me." So he left his company.

Company Without a Product

About the same time, another executive of Industrial Nucleonics, Joe Marsalka, decided to strike out on his own as an attorney. He had earned an LLB from Cleveland Marshall Law School before joining the company as assistant to the president.

But instead of going their separate ways, the two men drifted together. Then, somewhat to the astonishment of even their close friends, they formed a company—although they had no idea of what their company would do.

Unperturbed by this detail, they set about the task of

thinking. They also visited machine shops, paper mills and manufacturing plants, searching for ideas.

Their confidence was not without foundation. One Columbus investor who heard what the two men were doing offered to buy a large share of their company.

"But we don't even have a product," George Foster told him.

"That's all right," the man said, "you'll think of something."

A Mysterious Sense

His prediction was right. While visiting shops and factories, the two men became absorbed with a puzzling, but extremely interesting discovery. It seemed to them that every organization had at least one old-time employee who had a mysterious "feel" for the machinery.

The old timers themselves couldn't explain the phenomenon, but by feeling the vibrations and listening to the sounds of the machines, they would conclude that "This drill press will have to come down for repairs next week." or "That metal lathe isn't running just right." Invariably they would be right.

Foster and Marsalka questioned the owners. What happened when these old timers weren't at work? What were the results in areas where they didn't have occasion to hear the machines?

The answer was the same: Unexpected and costly break-downs.

Why, then, didn't they do something about monitoring the machines electronically? The answer—there just didn't seem to be any such monitor on the market.

That was all the encouragement the young partners needed. The only thing left was for George Foster to invent such a monitor.

They purchased an old farm house, without even bothering to look inside, and were soon on the way to developing their product. In May, 1960, they decided to bring in another man who would be equally dedicated to the goal they visualized.

Marsalka immediately thought of an old friend, Charles Spademan. The two had known each other in their home town of Lorain, Ohio, and had been classmates as well as fraternity brothers (TKE) at Ohio University. Charlie

Three men are opening up an entire new stage
of automation through imaginative electronics.

RayData: A Calculated Discovery

had since earned a master's degree in electrical engineering from Michigan, and had found success as a research man in missiles and electronics.

They contacted Charlie, then with General Telephone Laboratories in Chicago, and the partnership became a triumvirate known as the RayData Corporation.

For several months the work was confined to research and development. The old house became a lab where Foster and Spademan worked on their proposed electronic monitor. Meanwhile, Marsalka was equally busy organizing the corporation, planning for accounting, sales, personnel development, and physical expansion.

The product they hoped to market would be revolutionary. With it, machines could be monitored constantly, so that slight deviations from the norm would be immediately detected.

"A machine rarely breaks down suddenly," Foster explains. "Somewhere, something begins wearing away or otherwise deteriorating gradually. If it can be detected early, it can be replaced before it causes eventual breakdown."

Similarly, the trio hoped to have instruments to monitor finished products, so that slight irregularities could be discovered before they became defective.

The results would be tremendous savings in production.

In November the first product, appropriately named "Signal Analyzer," went on the market. It was followed by a machine performance recorder in January. Meanwhile, development of other industrial monitoring products continues.

Today, RayData is moving so fast that anything written about it is outdated by the time it can be set into type.

A new building, right next to the white farm house, will be under construction this spring. A sales force which already blankets the country is operating and a home office staff of some 26 persons grows almost daily. When the new building is completed, there will be at least 40 persons assembling RayData equipment. With typical optimism, the corporation leaders are designing the building for future expansion.

New problems and challenges are met every day. A great deal of the corporation's strength will lie in unique ideas and patents, so there is a constant rush to penetrate the web of red tape surrounding patent rights. They plan to have some 20 patents a year to keep pace with engineering developments.

JOE MARSALKA

Will Substitutes—A Myth

By Lowell B. Howard

ASSOCIATE PROFESSOR OF BUSINESS LAW

An Ohio University professor
explodes some misconceptions
concerning various devices
often considered substitutes
for an adequately drawn will.

ONE OF the great ironies of life is the tendency of men for procrastination. Unless there is some compelling force that drives a man to do a task today, he is apt to postpone its doing until tomorrow.

A superstitious prejudice against wills is found in many persons past middle age. Apparently they think that testamentary preparation for disposition of their property at their death may somehow hasten their demise. It has been reported that in many places six out of ten persons die intestate.

The desirability of having a will is readily apparent, but the primary purpose here is to consider various devices and arrangements which are often thought of, particularly by laymen, as substitutes for a properly drawn will.

The five substitutes which will be discussed are the intestate laws, safe deposit boxes, survivorship interests, including joint bank accounts, and other joint property arrangements, and finally, life insurance.

The Intestate Laws

Every state has a statute which provides how the estate of a decedent who dies intestate is to be shared by his relatives. The rationale of this statute, called the Statute of Descent and Distribution, is that after death every person desires his property to go to his closest relatives.

All of us know that in some cases the decedent desires just the opposite. The statutory formula does not provide for special circumstances or special bequests. The property is distributed strictly in accordance with this impartial statute.

Even where the intestate laws coincide with one's desires as to who should share his property at his death, the preparation of a will permits the testator to designate a particular person as executor, or perhaps the testator will want to excuse the executor and other fiduciaries from giving a bond. The latter is possible only by including an appropriate provision in a will.

An intolerable intestate situation regularly occurring is that of a decedent with a surviving spouse and minor children. In such a case under the Ohio intestacy law the surviving spouse would take only one-third of the estate, with the children taking two-thirds divided equally.

Over the years I have seldom encountered a family who desired this arrangement. Similarly a childless couple seldom desires the parents of a deceased spouse to share in the estate of the deceased spouse but such is the result in Ohio, in the absence of a will to the contrary.

DRAWING BY CAROL EARLEY

Some of the dislike of wills is based upon the knowledge that expense and inconvenience are incurred in the process of probate and administration and that delays occur before the beneficiaries are permitted to enjoy the testator's bounty. It should be noticed that with the exceptions of the distractions connected with will contests, the same objections apply to intestate estates.

Property owners frequently believe that they can prevent the collection of their debts and inheritance taxes by neglecting to make wills and using certain devices to prevent administration under the intestate laws.

The schemes are often without sound theoretical basis and frequently fail in practice. They may entail, because of litigation, a greater diminution of decedent's property than subjection to the ordinary course of testate or intestate succession.

On the other hand, some of the devices used are well recognized in the law and may fit the needs and desires of the individual property owner, though most of them involve the surrender of some of the control that the owner could have retained in his lifetime had he chosen to allow his property to pass by testate or intestate succession.

The Safe Deposit Box Device

One attempted detour around going to the trouble of executing a will is to give the person desired to be benefited access to a safe deposit box containing money, valuable personal effects or negotiable securities. Under this scheme the plan is that upon the death of the owner, the other person will go to the box, take charge of the contents, and it is thought no one will be the wiser but the beneficiary will be the richer.

No such magic is possible with the safe deposit box. In many states this method of procedure is unlawful and can result in grave consequences. If discovered, an administrator may be appointed to administer the property for the benefit of creditors and the heirs of the deceased.

Also, if there has been an evasion of inheritance taxes severe penalties may be imposed by the state.

A safe deposit box is usually rented by a party who then authorized one or more deputies or agents to have access to the box. But, this authority is automatically revoked by the death of the party who leased the box and appointed the agent.

Even if the contract for the box is a joint one, it is doubtful whether the deposit company is authorized to give access to the survivor though some states have passed legislation permitting this to be done.

In Ohio, the County Auditor is the State Tax Commissioner's representative and someone from the Auditor's office must be present to inventory the contents of the box at the time it is opened.

Joint Ownership

An increasingly popular method employed by persons, particularly a husband and wife, interested in owning property in a way which permits the survivor to become the sole owner without court proceedings is to arrange by con-

tract a joint tenancy with the right of survivorship.

Generally, this method of ownership can be used with reference to real property and personal property, including automobiles, bank deposits, interests in partnerships, stocks, and bonds.

A related type of co-ownership of property by a husband and wife, with the survivorship feature is the tenancy by the entireties, which is still recognized in about one-third of the states.

In order to use the joint tenancy so as to accomplish the purpose in mind, it is exceedingly important that the contract establishing the joint tenancy contain language which clearly expresses an intention that the entire interest in the property is to rest with the survivor.

One widely used form of wording is: "John Jones and Mary Jones, as joint tenants with the right of survivorship."

Banks and other financial institutions typically furnish husband and wife depositors or others opening a joint account, with a card for their signatures and on the card language appropriate for creating a survivorship joint tenancy is printed. In some cases the depositors opening a bank account are not fully aware of the legal consequences contained in the printing on the cards or other forms which they sign. In fact few such persons actually read or have read to them such provisions.

Incidentally, the same bank form often provides that each joint tenant is authorized to sign the signature of the other on checks for purpose of indorsement. This has the effect of creating a limited power of attorney.

Treasury Department regulations have assisted greatly the desire of government bond purchasers to use the survivorship arrangement by permitting that the bonds may be registered in (1) the name of the purchaser and a co-owner, in which case the bonds are payable to either and at the death of either the survivor is considered the absolute owner, or (2) the name of the purchaser and a beneficiary so that if the purchaser dies survived by the beneficiary the latter is considered the absolute owner.

One unique income tax advantage a husband and wife can enjoy by owning corporation stock jointly and filing a joint income tax return is that under the federal income tax law a taxpayer is permitted to exclude the first \$50 of dividends from his taxable income.

Thus, by joint ownership the husband and wife can enjoy together a \$100 non-taxable income item under the existing law. There are other lifetime advantages in owning property jointly and the advantages are not restricted to the case of joint owners who are husband and wife.

However, under the inheritance tax laws of most states and under the present Federal Estate Tax law it is not possible, as commonly thought, to effect a death tax saving by use of the joint tenancy arrangement.

An important disadvantage of the joint tenancy is that, while a will may be changed as often as the maker desires, a

(Continued on Page 19)

Bobcat Roundup

By Rowland Congdon, '49

Ohio University Basketball Coach Jim Snyder, in his 12th season, has been named Ohio Coach of the Year. Announcement of his selection, by collegiate basketball coaches in the state, came just as the magazine was going to press. Football Coach Bill Hess was the same honor in football last fall.

THREE YEARS ago a period of transformation hit the Ohio University athletic scene.

With the hiring of Bill Hess as head football coach in January of 1958, a chain of staff reassignments in the athletic department came about. As a result, the past year and a half have been perhaps the most productive in the winning of various championships as any similar period in Ohio University's long history.

Athletic Director Carroll Widdoes was relieved of his "other" job, head varsity football coach. Two years later, he headed a staff of coaches which won for the university the Mid-American Conference's All-Sports Trophy, awarded annually in the spring for overall excellence in the nine-sport conference program. This OU won for the 1959-60 school year.

NEW CAREER RECORD HOLDER Bunk Adams chats with the man whose record he topped, Frank Baumholtz, right, and Coach Jim Snyder, who was a teammate of Baumholtz. The Bobcat captain from Toledo topped the long standing record by Baumholtz when he scored the 1097th point of his career in his 67th game (Baumholtz scored 1096 in 67 games), then went on to pad the record in the remaining five games of the regular season.

Hess was permitted to hire two new assistants, Hugh Hindman and Bob Kappes, to join Widdoes' holdovers, Frank Richey and Cliff Heffelfinger, as a full-time staff of five varsity football coaches. Widdoes' staff had been comprised of coaches who had assignments in other sports during the school year.

Relieved of the time-consuming football duties when Hess came were backfield coach Jim Snyder, also head basketball coach, and end coach Kermit Blosser, also freshman basketball coach and head golf coach.

This enabled these men to devote more time to their other coaching assignments. Hess, in three years, produced a national championship team in the "small college" division.

And in Snyder's third year after being able to spend full-time coaching basketball, the school's first Mid-American Conference championship in that sport was won by the 1959-60 Bobcats. The extra time made available to both Snyder and his assistant, Blosser, undoubtedly played a major role in this success.

At the football banquet last winter, honoring the 1960 national "small college" champions, President John C. Baker emphasized how athletics at Ohio University had joined the overall program of excellence and high quality which he set as a goal for all phases of the university when he came here in 1945. This, the president's final year, can prove to be the finest sports year in Ohio University history if present trends continue.

For Jim Snyder's Bobcats have attained their second straight conference title.

This was a major coaching success for Snyder, his assistant, Blosser, and his new addition, though technically not a member of the basketball coaching staff, Bob Wren. Wren, head baseball coach also relieved of football duties beginning with this school year, has been scouting OU opponents and looking at high school prospects around the state.

The Bobcats clinched the title the first year in their spanking-new home, the Brandon T. Grover Physical Education Center, on the night of Feb. 18 against Bowling Green, with the season's second largest crowd, 5971, looking on. Included in this group was the 1940-41 Bobcat team, NIT finalists, back for their 20-year reunion.

This was almost a year to the day, Feb. 20, 1960, when

the 1959-60 Bobcats won the title against Bowling Green with an overflow crowd of 2700 looking on in old Men's Gym.

Winning the title on Feb. 18 this season, however, provided OU with a birthday present as that is the date of its founding in 1804.

This year's team is almost a carbon-copy record-wise of the 1959-60 Ohio U. champions.

The 1960-61 Bobcats finished their regular season play with a 17-6 mark, 10-2 in the league. Last year's team was 16-6 regular season, 10-2 in the league.

Both teams finished their league seasons in the same way, with title-clinching wins over Bowling Green at home and losses to Miami on the road after the flag was won. Both defeated the chief contender, Toledo, at home and lost to the Rockets at Toledo.

Last year's Bobcats went on to upset favored Notre Dame in the first round of the NCAA Mid-East Regional Tournament. This year's OU champions will also be underdogs in their first round NCAA go against the University of Louisville at Louisville, Ky., March 14. Louisville set a record-breaking pace in their 117-84 win over OU at the tournament site in the middle of February.

Nine OU games were won by a total of 29 points. Three were in overtime by a total of 16 points. Briefly, these wins were:

81-80, over Morehead, at Morehead, Ky., on 40-foot jump shot by Larry Kruger at the buzzer; 50-48, over Wittenberg, at Canton, O., in final game of Canton Intercollegiate Tournament, on Gary Bolen's fielder with three seconds left; 62-61, over Bowling Green, at Bowling Green, on Bill Whaley's free throw with seven seconds to go; 64-62 over Western Michigan at Athens on Bill Whaley's set shot at the buzzer.

55-50 over Toledo, at Athens; 78-76 over Western Michigan, in overtime, at Kalamazoo, Mich.; 89-85, in triple overtime, over Kent State, at Kent; 102-92, in overtime, over Kent State, at Athens, in a game in which OU overcame a nine-point deficit with 1:41 to go in regulation

MEMBERS of the 1941 basketball team were special guests at the Feb. 18 game between OU and Bowling Green. Frank Baumholtz served as speaker for the group and presented trophies to their former coach, W. J. Trautwein, and assistant coach, Harold Wise. Left to right in the photo are William E. "Cappy" Howard, Akron; E. Douglas Reinhardt, Dayton; Robert M. Wren, Athens; Robert A. "Fizz" Miller, Dover; Peter T. Lalich, Bridgeport; Harlan R. Hasch, Danville, Ill.; W. Harold "Heck" Harkins, Stackport; W. J. "Dutch" Trautwein, Athens; Vernon W. Deinzier, Dayton; Harold E. Wise, Columbus; Frank C. Baumholtz, Cleveland; Carl H. Ott; Cuyahoga Falls; and Charles H. Fulks, Athens.

time to tie it up at the buzzer on an out-of-bounds pass from Bill Whaley to Bunk Adams who scored the tying points; and 74-72, over Bowling Green at Athens.

So much for basketball. A final wrapup on the season will be made after the Bobcats participate in the NCAA Tournament, beginning at Louisville, Ky., March 14.

The other winter sports found the swimming team with a 7-1 dual meet record prior to the meet with Bowling Green at Athens, March 4, preceding the conference championships at Bowling Green March 9, 10, and 11, at which OU might be the favorite. The only loss was to Cincinnati in the Bearcats' undersized pool.

The wrestling team had a 3-3 dual meet record prior to their final two duals of the season before hosting the Mid-American Conference championships here in Grover Center March 3 and 4.

The ice hockey club, taking on a more ambitious schedule in its third year of competition, had a 7-6 record with one game to play but was leading the Ohio Intercollegiate Hockey League for the second year. Losses were to Army at West Point, Michigan State twice at East Lansing and twice here, and Western Michigan. Wins were against Western Michigan here and the University of Pennsylvania at Philadelphia, in addition to those over league members, Case Tech, Ohio State, Fenn College, Ohio Northern and Kenyon.

Football games with Purdue University have been scheduled to open the 1964 and 1966 seasons at Lafayette, Ind.

Experiment in Living

ON OAK Ridge Road in Stillwater, Minnesota, there sit two identical houses of modern design. One is a "ghost" house—unoccupied. The other is occupied by Roy J. Bierman, '41, and family.

Each morning Bierman must enter the "ghost" house, open the door six times and open the drapes. In the evening he must open the door eight times and close the drapes.

It sounds like a cloak and dagger story but the real fact is that the two houses are experimental homes. The Biermans live in one house to present a true living situation. They attend to the "ghost" house which is set up for a simulated living situation.

The purpose is to determine the heat demands and heating losses of a home in a normal situation. The outcome will give more information as to the design and functions of heating systems and how much insulation should be used.

Conducting the experiment is the Minneapolis Honeywell Regulator Co. in cooperation with the Wood Conversion Co.

Volunteer Family

Roy Bierman was in the process of being transferred by his employer, the Minneapolis Honeywell Regular Co., from Duluth, Minn., to Minneapolis as industrial sales manager of the Twin City Branch when he was approached by one of his customers, the Wood Conversion Co.

Wood Conversion had heard of his transfer and wondered if Bierman would volunteer for the test. He volunteered and the Bierman family, consisting of two adults, two children and one beagle dog, moved into one of the test houses last fall.

Bierman describes the experiment as "rather simple as far as our family is

concerned." They live as they normally do "except for reading the instruments which takes about 45 minutes a day."

"In the morning we go to the unoccupied house, open the door six times and open the drapes. Nothing special is done until about 4 p.m. every day when my wife reads the meters both in our house and in the unoccupied house. There is also a special garage which is equipped with instruments involved in the test."

In the evenings Bierman opens the doors of the unoccupied house at least eight times. He says, "We don't have any special procedures on door openings in the house we live in except that each door opening is automatically counted. Our door openings have averaged 70 per day since the test began."

The tests don't bother the Bierman children. In fact their 9 year old boy, Roy Jan, likes to assist once in awhile

in reading the instruments, usually by writing down the data as the meters are read. Their daughter, Bonnie, 10 years old, ignores the tests completely according to Bierman.

The tests are scheduled to end this spring. Following that, the data compiled will be released nationally in various engineering journals and newspapers.

As for the future of the Bierman family, they plan to buy and move into their own home. The test homes will be sold to other families.

A 1941 graduate, Bierman joined the Minneapolis Honeywell Regulator Co. in 1947. He was located in Minneapolis, Minn., until 1956 when he was transferred to the Duluth office as branch manager. "I held this job till October, 1960 when I was promoted to branch industrial sales manager in the Twin City branch in Minneapolis."

ON WEEKENDS Roy J. Bierman, '41, assists his wife, Betty, in reading the instruments in their experimental home. Bierman was recently transferred from Duluth, Minn., to Minneapolis by his employer, the Minneapolis Honeywell Regulator Co.

Alumni Day

SATURDAY, JUNE 3

In Honor of Dr. John C. Baker

All alumni are urged to be present on this annual Alumni Day and to participate in the festivities honoring Dr. John C. Baker on the occasion of his retirement as President of Ohio University.

Official Reunion Classes are 1911, 1916, 1921, 1926, 1931, 1936, 1941, 1946, 1951, and 1956. For this special program however, ALL alumni are invited to be present. Overnight accommodations in university dormitories on a "near

hotel basis" are available to all at nominal costs beginning June 2. Write the Alumni Office, Box 285, Athens, Ohio, for reservations. Watch for further details in the next issue of the OHIO ALUMNUS magazine.

Plan Now to Join Your Friends at the June Reunion

Continued from Page 15

A Myth

joint tenancy may create a legal title in the other joint owner which may not be disturbed without the latter's consent.

In other instances a person relies on a joint account in place of a will and then transfers the funds to say, a brokerage account or withdraws the money to buy something, intending to replace it some day, of course, but forgetting to do so. Then, the beneficiary finds that he is getting a bank book with his name on it, but little else.

Life Insurance

By investing in life insurance policies payable to designated beneficiaries, one may reduce the amount of his estate which is subject to administration. But a person is usually limited in ability and desire to reduce his entire wealth to insurance.

Life insurance contracts can permit the insured to keep the amount and beneficiaries secret, and the insured can exercise control over the contract during his lifetime so that he can cash the policy or borrow against it or change the beneficiaries at will if the contract so provides.

Generally, upon the death of the insured, the insurance proceeds will be paid to the beneficiaries without court proceedings of interference from the creditors of the deceased.

One fact to keep in mind is that while such insurance proceeds are not usually subject to state inheritance taxes, insurance on the decedent's life payable to his estate, or to individual beneficiaries to the extent that it was paid for or owned by the decedent, is part of his gross estate for the purpose of the Federal Estate Tax.

In conclusion all the various property devices and arrangements have a proper place in the tool kit of the estate planner, but at best they are only partial substitutes for a properly drafted will.

Continued from Page 13

RayData

Electronic research and development will always be essential, of course, but RayData executives are equally concerned with a sound company philosophy. All three are emphatic in emphasizing the development of employee self-confidence.

"Every person at RayData will have the chance to develop his own abilities and to explore his ideas," Marsalka explains.

Responsibility is divided among the three men, officially, although they are most often seen conferring together on various phases of their corporate business.

In addition to being president, Foster is in charge of promotion and sales operation. Marsalka is executive vice president, general manager, and head of the administrative sales organization. As vice president—engineering, Spademan heads experimental research and development.

As the organization grows, they plan to establish a ratio of 60 percent technically trained personnel to 40 percent on the production line.

More often than not, a day's work progresses into an evening's work, but the men still find time to enjoy their families. Both Spademan and Marsalka are married to Ohio University graduates who are as excited as their husbands about the new venture.

Joe and Mrs. Marsalka (Mary Burson, BSEd, '51) have a son, David, 5, and a daughter, Beth, 3. Charlie and Mrs. Spademan (Norma Bell, BSEd, '51) have two boys, Stephen, 8, and Mark, 6.

The future of the RayData Corporation points to unlimited horizons. And if there is any doubt at all about the success of this vibrant organization, it is not in the minds of George Foster, Joseph Marsalka, and Charles Spademan.

Alumni Scope

1908

A. P. MICHAEL, of Orlando, Fla., is consulting engineer with A.P.B.R.K. Michaels, Engineers.

MADLINE L. SCHAEFFLER makes her home in Sunset Terrace, Coshocton, O., where she is a secretary for the Pomerene and Burns law firm.

1917

EVA WATKINS HICE now resides in Redwood City, Calif.

1920

EARLE K. KINCAID is president and general manager of the Aluminum Siding and Window Sales, Inc. in Kalamazoo, Mich.

1921

HERBERT L. BALLENTINE has retired and lives in Florida. Mr. Ballentine taught in the Cleveland Public Schools before his retirement.

MILDRED A. SCOTT retired after thirty six years of service as an employee of Ohio State University in the office of business and finance.

1923

MARY HENDERSON KILLPATRICK EMERY is instructor of business machines and accounting at the Institute of Business Techniques in Springfield, Ill.

1924

MABEL COTTERMAN KIMMEL and her family live in Canfield, O., where Mrs. Kimmel is a kindergarten teacher in the Canfield Schools.

1925

WILLIAM PERL CLARK has retired and is living in Belpre, O.

1927

HENRY FRANKLIN SHEPHERD and his wife live in Chevy Chase, Md. Mr. Shepherd is employed by the US Department of Agriculture, Washington, D.C. as chief of personnel operations in the office of the secretary. He received a superior service award in 1953.

ELIZABETH KILLIAN DUNSON teaches third grade in the Sidney Public School. Mrs. Dunson makes her home in Sidney, O.

1928

CLARENCE G. LITTLE manages the In-Town Auto Theatre in Columbus, O.

1929

JOE BEGALA, Kent State University wrestling coach, set a new collegiate record this year with a lifetime record of 224 dual meet wins. In 29 seasons of coaching Begala's teams have won 224, lost 36, and tied two to give him an 85.5 percent win average.

1930

MARY E. BATTLES WIDMAN lives in Middletown, O., where she is district advisor of the Girl Scouts of America.

VERA STOCKSTILL KILLIAN, her husband and their three children reside in Sidney, O.

KEITH C. MOORE is assistant secretary of the Square D Company's E C and M Division in Cleveland, O.

JOSEPH H. DANDO, assistant dean of men in charge of residence halls at Ohio University, will assume new duties at the university July 1. Mr. Dando will retain the title of assistant dean of men, but will supervise student personnel program and serve as advisor to campus organizations.

1932

DONALD O. KIBLER is president of the Kibler and Sons Co. in New Washington, O.

Chapter Head

Dr. Sprague Leads California Club

HEADING the Ohio University Alumni Association's dynamic Southern California chapter this year is a transplanted Ohioan who has been a physician in Van Nuys, California, for the past 30 years.

DR. GERALD T. SPRAGUE

He is Dr. Gerald T. Sprague, '20, who received his M. D. from the University of Cincinnati after graduating from OU.

Known as "Gerry" to his close friends, Dr. Sprague has become a well known citizen of his Southern California community. He is a director of the Van Nuys Chamber of Commerce, a director of the Kiwanis Club, former owner of the Valley Hospital, and current owner of Sprague Apt., Inc., which operates apartments totalling 155 units.

In fact, the community has named a street, Sprague Avenue, in his honor.

Last fall Dr. Sprague and his wife, the former Ivy (Bud) Swarz, '21, spent two months visiting Australia, and New Zealand, and several South Pacific islands.

The couple has two children, Gerald, Jr. and Mrs. Jaclyn J. McNary, and four grandchildren.

RAY D. KENLY is principal of an elementary school in Cincinnati, O.

RUSSELL WILLIAM KEPLER, his wife and their four children reside in Willington, O. Mr. Kepler is district manager of the Texas Refinery Corp. of Fort Worth, Tex.

1933

WILLIAM J. KING lives in Manlius, N. Y., and is employed as a zone sales manager in the Chevrolet Division of General Motors there.

LILLIAS BISSELL WILE teaches Latin and algebra at Portage Junior High School in Barberton, O.

MARTHA KEELER HURLBUT is an elementary teacher in Lowell, O.

1934

WALTER A. WEISENBACH teaches at Lagonda Elementary School in Springfield, O.

ARCH R. KELLER, his wife and their two boys live in Bay Village, O. Mr. Keller is chief electrical engineer in Bay Village.

1935

CHARLES JOSEPH KESSLER of Dayton, O. is a clerical worker for the N.C.R. of Dayton.

WILBUR E. SCHAFER is a member of the Soldiers and Sailors Relief Commission of Miami County and the administrative board of the Upper Miami Valley Guidance Center Inc. In January of this year Mr. Schaffer was elected chairman of the Stillwater District of the Miami Valley Council of the Boy Scouts of America and was elected treasurer of Negley-Fry Post #41 of the Disabled American Veterans of Piqua, O.

Dr. ALEXANDER K. PHILLIPS, a Youngstown surgeon on the staff of St. Elizabeth Hospital, was appointed president of the Mahoning County Medical Society.

1936

MYRON M. ZOSS lives in Minneapolis, Minn.

GRACE MULLIGAN KERCHNER has been teaching for 23 years in Columbus, O.

JOHN WHITING, publisher of Flower Grower for the past eleven years, is resigning to accept the new position of executive vice president and director of Popular Science Publishing Co. His home is in Irvington, N. Y.

1937

RALPH W. PARKS, JR. is rector of the All Saints Episcopal Church in Detroit, Mich. From 1955 through 1958 Rev. Parks was honorary canon of St. Pauls Cathedral and archdeacon of the Michigan Episcopal diocese.

RAY E. KEESEY is associate professor in the department of dramatic arts and speech at the University of Delaware. He was appointed assistant dean of the school of arts and sciences just recently. Mr. Keesey and his wife, GENE GORDON KEESEY, and their two children, Mary Ann and James Michael, live in Newark, Del.

HENRY J. PALMIERI, director of the Domestic Relations Court in Pittsburgh, Pa. has been reappointed to the professional council of the National Council on Crime and Delinquency for a three-year term.

Company Climbs To New Heights

A NEW "fluid power" department to handle hydraulic and pneumatic components and meet the growing demand for materials for automated machinery has been added to the Hope Rubber Co., Inc., headed by Francis M. "Doc" Rhoten, '28, of Fitchburg, Mass.

The Company also has received a franchise to distribute Hannifin air and hydraulic cylinders and air control valves.

Mr. Rhoten's son, Carey, who graduated from Dartmouth in 1958 and has been with B. F. Goodrich Co. in Chicago, has returned to Massachusetts as a sales representative of his father's company.

Company headquarters in Fitchburg is being expanded and modernized to make room for the new department, and several staff members will be added this year.

The Hope Rubber Co. was formed in 1933. Ten years later Mr. Rhoten purchased complete control of the firm from other investors. In 1956 he severed all connections with the retail outlet to devote all of his time to industrial distributing of specialized lines. The present Hope Rubber Co. has a complete rubber workshop and was one of the first distributing firms to offer vulcanizing of rubber belts inside indus-

FRANCIS M. RHOTEN

trial plants.

Mr. Rhoten not only trains his own men, but his firm also serves as a school for industry. Hope Rubber Co. is equipped to handle cutting and slitting of miscellaneous rubber products and produces many small items such as gaskets and washers.

The work is done in the 25,000 square foot building in Fitchburg, in the branches, and in the field when necessary. Employees include mechanics and salesmen trained to make on-the-spot V-Belt and conveyor belt surveys, repairs and installations. All employees participate in a profit-sharing plan.

Mr. Rhoten is a former member of the OU Alumni Association's Board of Directors and holds the alumni Certificate of Merit.

1940

J. VICTOR SHULMAN is a special representative for the American Greeting Card Corp. of Cleveland, O. Mr. Shulman resides in New Melford, N. J.

KATHRYN A. SMITH graduated in 1959 from Columbia University with her doctorate degree in education. During the summer of 1960 Miss Smith taught at Wisconsin State. At the present she is professor of education at the State College of New Jersey, New Jersey City.

ROBERT H. BOULWARE is vice president of Fletcher Richards, Calkins and Holden.

1938

ROBERT S. KELLER and his family live in Columbus, O., where Mr. Keller is a research chemist with the Nestle Company, Inc.

1939

C. RAYMOND SCHWENKE is a colonel in the US Marine Corps and stationed in Arlington, Va.

A Dream Fulfilled

DR. EDITH BEECHEL takes the microphone to thank all responsible for her being named "Citizen of the Year" in Loveland, Colorado. Dr. Beechel taught on the Ohio University faculty 26 years until her retirement in August, 1949, at which time she moved to Loveland.

A FORMER Ohio University faculty member has had a dream fulfilled.

For years Dr. Edith Beechel has been a faithful follower of Dr. Florence Rena Sabin's medical research at Rockefeller Institute and her work as a professor at Johns Hopkins University in the field of tuberculosis. Dr. Sabin is credited with finding the cause of the infectious disease.

After her retirement from teaching at Ohio University in 1949, Dr. Beechel moved to Loveland, Colorado, where her interest in Dr. Sabin's work was intensified.

When in 1953 Dr. Sabin died, it was Dr. Beechel who started pushing the idea of a statue of the great medical researcher for the empty Colorado niche in the nation's capitol. She suggested it first to the

Colorado division of the American Association of University Women, of which, she is a member, and it was taken from there.

On February 26, 1959, the statue was unveiled in an impressive ceremony in the rotunda of the capitol. Later it was moved to its permanent position in Statuary Hall.

Dr. Sabin was the second woman to be honored with a place in the capitol, the first being Frances Willard, a great temperance reformer and fighter for women's suffrage.

The story does not end here because on January of this year, Dr. Beechel was awarded the coveted "Citizen of the Year" award in Loveland, Col.

Among her many, many service activities that brought her the award was her push for a statue of Dr. Sabin in Statuary Hall in Washing-

MARGARET SCHRUM KIMPEL, her husband and their four children live in Leesburg, Fla. Mrs. Kimpel teaches for the Beverly Shores Elementary School in Leesburg.

WILLIAM C. SIMMONS has been named general merchandise manager of Goldsmiths Department Store in Memphis, Tenn.

MAXINE KENT VALIAN has completed all requirements for her Ph.D. degree in philosophy at the University of Southern California.

EDGAR C. GODFREY is assistant professor of Industrial Education at Georgia Southern College in Statesboro, Ga. Mr. Godfrey is now on a two year leave for his doctorate degree and is graduate assistant to the executive dean for student life at the University of Maryland.

HERBERT M. KOTZMAN, his wife, DOROTHY KUCHENRITHER KOTZMAN, '42, and their two children, Herbert and Kathleen, live in Indianapolis, Ind. Mr. Kotzman is accounting manager for the Allstate Insurance Co. of Indianapolis.

CHARLES J. SKELLY, his wife, EDNA M. ZIMMER SKELLY, and their six children live in Falls Church, Va. Mr. Skelly is a position classifier with the US Air Force of Falls Church.

1942

ROBERT E. BOAK and his wife, FAY L. LOVETT BOAK, '39, live in Montclair, N. J.

BOB H. KEARNS, his wife, MARY KATHRYN PATTON KEARNS, and their daughter, Karen Lynn, live in Ashland, Ky.

DR. MARJORIE MALONE is supervisor of music education for the State of Ohio.

BEATRICE KENNEDY DEAN, her husband and their two children live in Holloway, O. Mrs. Dean is principal of the elementary schools in the city of Holloway.

MARY N. THUMA of Fredericktown is elementary consultant for the Row Peterson and Co. of Evanston, Ill.

MARY MCGAREY of the Columbus Dispatch won first place in the news story division of the Ohio Newspaper Women's Association contest.

1943

ROBERT J. HABORAK is manager of a finance company.

JOSEPH MARRA was elected president of the Borough Democratic Club. Marra is a native of Perth Amboy and has lived in the borough since 1950.

WILLIAM L. HEINZ is vice president of the Dr. Heinz Co. in Bloomingburg, O.

1944

WILSON W. HOPKINS, JR., and his wife live in Sarasota, Fla.

1945

DEMARIS JARROLL WILLIAMS and her husband make their home in Washington, D. C. Mrs. Williams is supervisor of primary schools in Washington, D. C.

1947

HOWARD B. ROBERTS and his wife live in East Rockaway, N. Y. Mr. Roberts is a salesman in Brooklyn, N. Y.

W. RANDALL WALTERS is an employee of the Boeing Airplane Co. in Wichita, Kans.

DR. ROBERT W. PRICE and his wife, Norden, live in Topeka, Kans. Dr. Price is a resident physician in the Topeka State Hospital.

1941

HERMAN TRUBOV and his family live in Athens, O. Mr. Trubov is in the bureau of educational research at Ohio State University.

1948

MILTON D. HOLMES was named judge of the Rocky River Municipal Court. Judge Holmes, his wife, MARY A. COPELAND, '47, and their three children live in Westlake, O.

WALTER G. MITCHELL is affiliated with the U. S. Public Health Service Laboratory in Atlanta, Ga., as a physiologist.

WILLIAM F. DIETRICH has joined Canfield Oil Co. as a staff assistant to the general manager. For the past two years he was a staff assistant to the retail manager in the office of marketing of Standard Oil of Ohio. Mr. Dietrich and his wife, the former DORIS A. HINMAN, '48, and their three children live in Lakewood, O.

1949

HELEN P. KRUSE BARONIAK of Lexington Park, Md., is a professional mathematician for the government of Lexington Park.

MARILYN COVERT BREEDING and her husband reside in Rolling Hills, Calif.

EDWIN J. EWING and his wife live in Roanoke, Va. Mr. Ewing is employed by WDBJ-TV in Roanoke for the production division of Time World Corp.

MABLE J. LEE lives in Athens. Miss Lee is a surgical nurse for Sheltering Arms Hospital.

WILLIAM B. GRINDERENG is on a Fulbright grant in Japan.

JEAN RACHEL SENFT is management analyst in the air material command headquarters for Wright-Patterson Air Force Base, O.

RICHARD N. MACKINNON was transferred from James B. Clow and Sons of Coshocton, O. to Chicago, Ill., as assistant works manager. Mr. Mackinnon is married to the former JOAN VANCE, '52. They have two children.

GORDON A. WEESE and his wife live in Columbus, O. Mr. Weese works for the Ohio State Highway Department in the planning and programing department.

1950

DWALNE E. RUBLE is now living in Downey, Calif.

50th Anniversary

ALUMNI MEMBERS of Alpha Xi Delta will return to the campus April 22 for the 50th anniversary of the sorority. An anniversary luncheon will be held at the University Center.

Marilyn Francis, Phoenix, Arizona, nationally-known author, will be principal speaker. A 1941 graduate of Ohio University, she is a member of Alpha Xi Delta.

Bosses' Night Banquet

MESSRS. HESS, RUSSELL HERROLD, GORDON HERROLD, GALBREATH, BAKER, DAUBERMIRE AND SWEARINGEN.

OHIO University alumni were well represented at a January Bosses' Night-Distinguished Service Award banquet sponsored by the Lancaster, Ohio, Junior Chamber of Commerce.

Among those receiving citations for their contributions to the State of Ohio were OU' Trustee John W. Galbreath, '20, real estate executive and owner of the Pittsburgh Pirates; OU President John C. Baker; and Head Football Coach William R. Hess, '47.

James E. Daubermire, principal of Lancaster's Tallmadge and Utica Schools, was a banquet official. Fred Swearingen, '42, Athens businessman and a National Football League official, was a special guest.

Also in attendance at the banquet were Russell P. Herrold, '20, and Gordon W. Herrold, '24, both vice presidents of the Anchor Hocking Glass Corporation.

JAMES W. HIEPLER is a professor in the psychology department at Butler University in Indianapolis, Ind. He and his family reside in Carmel, Ind.

JOHN EMRICK is an assistant manager for the firm of McCune and Co. in Columbus, O.

DAVID H. DAVIS is a captain in the US Army stationed in Fort Lee, Va.

VERNON ELWOOD PLASS is a production control scheduler for the Continental Can Company in San Leandro, Calif. He lives in Fremont, Calif.

BRUCE EUGENE ARNOLD is assistant to the personnel director of Colonial Stores, Inc., in Atlanta, Ga.

PAUL W. DEVORE is head of the industrial arts department at Oswego State Teachers College in Oswego, N. Y.

VERNE A. SECHLER has been promoted to the industrial sales division of the American Electric Power Service Corp. in N. Y.

JAMES L. SHREFFLER is a physician and anesthesiologist in Waterloo, Ia.

FRANCES MALONE HENDERSON is lecturer in music education at Ohio University.

PAUL L. WOOD and his wife live in Pennsville, O. Mr. Wood is principal of the Pennsville School.

DANIEL S. MCCLEESE resides in Chillicothe, O., where he is associated with Barrett, Cargo, Withers and Associates, Ltd.

ROBERT H. WRIGHT and his wife, NANCY PILGRIM WRIGHT, '54, live in Newark, O., where Mr. Wright is a dentist.

ROBERT IRVIN CHRISTEL is industrial arts teacher at North High School in Springfield, O.

JUNE ELIZABETH BOUKIN POWER, her husband and their three children make their home in Chevy Chase, Md.

WILLIAM R. STEWART is project manager with the Campbell Engineering Inc. of Detroit, Mich.

HARRY LLOYD WALTON, his wife, Arleen, and their three daughters live in Carmichael, Calif. Mr. Walton is employed by the Aero-Jet General Corp. of Sacramento, Calif., as a photographic engineer.

ROBERT L. JOHNSON is chief property accountant for the Comptroller Services Division at Wright Patterson AFB in Dayton, O.

Enters Partnership

NINE years after leaving the accounting firm of Ernst & Ernst in Cleveland, Lyman A. Davidson, '39, has been admitted into its partnership.

Davidson left Ernst & Ernst in December, 1950 to go into private practice under the name of L. A. Davidson & Company, Certified Public Accountants in Cleveland.

In January of 1958 he became treasurer and a member of the board of directors of the Hudson Publishing Company in Hudson, O.

One year later Ernst & Ernst called him to be manager of their new office in Phoenix, Arizona, and then in October, 1960 he was admitted into partnership.

Davidson holds Certified Public Accountant certificates in the states of Ohio and Arizona. He is also a member of both the Ohio and Arizona Societies for Certified Public Accountants and the American Institute of Certified Public Accountants.

Married, Davidson has two daughters, ages 17 and 13. His family lives at 5401 E. Camelback Road in Phoenix.

PETER B. KORDA is a mechanical engineer for Volupete Inc. of Linden, N. J.

PAUL EDWARD MILLER and his wife, DOLORES P. HOGAN MILLER, '49 are living in Sterling, Ill. Mr. Miller is project engineer for the Penberthy Manufacturing Co. of Prophetstown, Ill.

KENT J. CHAPMAN has been promoted to ET manager at Grand Rapids. He was formerly ETAM salesman in Cleveland. Mr. Chapman and his wife, the former EFFIE CONDOPOULOS, '49, are residing in Grand Rapids, Mich.

JOHN J. SISLER of Ohio Power has been made administrative assistant. Mr. Sisler resides with his wife and two children in North Canton, O.

GORDON H. YOUNG is affiliated with Thompson Rano Woolridge as sales coordinator in the sales department in Cleveland, O.

WILLIAM M. STUBBS has received notification from the State Board of Examiners of Architects that he has passed the state board examination and has been issued his license to practice his profession. Mr. Stubbs resides with his wife and their two sons in Cambridge, O.

Formal Wear Is His Business

A FORMAL FASHION show was given by Harold D. Kent, '46, owner of Ascot Formal Wear, to prospective brides and bridegrooms in New Haven, Conn., recently. He is shown of the show with his wife, Gloria, and son, Richard.

HAROLD D. Kent, '46, probably has seen more dignitaries since his graduation from Ohio University than one would see in a life time. The reason being his business . . . renting and selling formal wear.

Just recently Kent outfitted a number of dignitaries for the President's Inauguration in Washington. At other times he has outfitted dignitaries for state inaugurations, leading citizens in the Connecticut area for weddings and stars for Broadway plays.

Kent operates his business, Ascot Formal Wear, from a location across from the Schubert Theater in New Haven, Conn., where many plays try out before going on to New York City and Broadway.

He relates, "Many times I have

had the stars come in for their formal needs for the plays" and "have been asked to check the attire on dress rehearsal night when there is quite a bit of confusion back stage."

It's a common occurrence for Ascot Formal Wear to get things ready at a moment's notice. For instance, Kent has outfitted dignitaries who have arrived at Yale University to speak and left their tuxedos at home.

Aside from his business, Kent is president of the New Haven Probus Club, a leading civic club in New Haven, and president of the Edgewood Elementary School PTA Association. He is married to the former Gloria Danzig, a graduate of Smith College, and has a son, Richard, 10 years old.

PAUL G. THOMAS is a research engineer in Columbus, O.

1952

JOHN H. LEVIS and his wife make their home in Olmsted, O. Mr. Levis is a representative for Riegel Textile Corp. in Cleveland, O.

FRANCES J. SMARTO is a teacher for the Willoughby North High School. Mr. Smarto and his wife, PHYLLIS BROCKETT SMARTO, '52, live in Willoughby, O.

SHELDON P. BURTNER is group engineer for the Servo Systems, North American Aviation in Columbus, O.

JAMES REES is band director in the Jackson, O., school system.

EARL BROWN EWING of Cleveland, O., is real estate salesman for the Ostendorf-Morris Co. of Cleveland.

RICHARD E. WHITE of Willoughby, O., is an advertising artist and partner in Designers Studio in Cleveland.

LOUIS E. MOORE is manager of the Blue Arrow Delivery Co. in Columbus, O.

CHARLES W. BOKAR has been promoted to production planning manager of the Eaton Manufacturing Co., Axle Division, in Cleveland, O. Mr. and Mrs. Bokar and their four children reside in Euclid, O.

EUGENE SAUDER is with McGladrey, Hansen, Dunn and Pedigo in Elkhart, Ind. He formerly was with Arthur Andersen and Co.

1953

LOUIS H. ORKIN is city prosecutor and assistant law director in Cleveland Hts., O.

DONNA JEANNE WAKER and her husband live in Plymouth, O.

CAPT. WILLIARD L. PORTTEUS is assistant professor of military science at Ohio University.

GEORGE CRAVEN is an instructor of photography at Everett Junior High School in Seattle, Wash.

GEORGE R. SIMON is head of the audiology and speech department for VA Hospital in Denver, Colo.

MARGARET K. SCOTT is personnel analyst for the University of California's Medical Center.

ROBERT M. CARANO is executive accountant for WFMJ-TV in Youngstown, O.

ARLO L. DIXON has been transferred by Kimble Glass Co. in Columbus, O. to Muncie, Ind.

DAVID M. WUTRICH is a staff member of the Warrensville Hts. (O.) High School in its music department.

RICHARD L. YOO is with New York Life Insurance Co. in Cleveland, O. Mr. and Mrs. Yoo, the former PATRICIA HEADLEE, '56, live in Mentor Twp., O.

SARAH J. HARTFORD MATTIX teaches kindergarten at Reilly School in Salem, O.

1954

FREDERICK R. NELSON and his wife live in Brooklyn, N. Y., where Mr. Nelson is communications engineer for the American Electric Power Service Corp.

NANCY ANN LOWE NOVAK and her husband reside in Cleveland, O.

REV. THOMAS E. HEINLEIN is minister of the First United Presbyterian Church of Kokomo, Ind. Heinlein, his wife, BETTE VAN BUSKIRK HEINLEIN, and their two daughters make their home in Kokomo.

JOYCE N. HERROLD of Houston, Tex., is specializing in internal medicine at Baylor Medical School in Houston.

DONALD JAMES HOLUB is stationed with the U.S. Army at Fort Bliss, Tex.

LOIS C. WHITE was awarded his Master of Arts degree in education from Western Reserve University during their winter commencement exercises February 1.

EARL W. PALM is a bookkeeper at the Circleville (O.) Second National Bank. Mr. Palm was honored for being the outstanding young man in 1960 by the Circleville Junior Chamber of Commerce.

Oldest Fraternity has New Home

NEW HOME of Beta Theta Pi is first fraternity house built on the OU campus since the Sigma Chi (then Sigma Pi) house was constructed in 1923. Realization of the new Beta house culminated a six-year fund campaign which was started by Homer Marshman, '20, Cleveland attorney. Co-chairmen of the drive were Russell W. Finsterwald, '19, Athens attorney, and Gordon K. Bush, '24, publisher of the Athens Messenger. The building, housing 43 men and the house mother, was constructed at the site of the other Beta house, 23 South Congress Street.

SALLY A. KELLY RICHARDS is a secretary for the Orange Line Publishing Co. in Fairview Park, O. Mrs. Richards and her husband live in Parma, O.

WILLIAM C. ROGERS is a captain in the Air Force stationed at Walker Air Force Base in New Mexico.

SALLY SEIDMAN RUBINSTEIN and her husband live in Oakland, Calif. Mrs. Rubinstein teaches art at Orinda School in Oakland.

PHILIP HILTON is employed with Morgan's Jewelers in Cleveland, O.

RICHARD G. FARRELL is now director of public relations for the Chicago Aerial Industries, Inc., in Barrington, Ill. Mrs. Farrell is the former JACLYN KAY BRACKETT, '53. They reside in Arlington Heights, Ill.

CLYDE R. FOBES, an accountant with Arthur Andersen and Co., Cleveland, O., passed his Certified Public Accountant examination in May, 1960.

JOHN L. MIHELICKS is a civil engineer with Roadway Express Co. He, his wife, KATHRYN E. DENGLE MIHELICKS, '54, and their son live in Cuyhoga Falls, O.

1955

GEORGE STANKO lives in Steubenville, O.

ROBERT GOODMAN is free lancing in Hawaii.

KEITH B. BERLIN works for the J. C. Penny Co. at Southgate Shopping Center, in Maple Hts., O.

THEODORE LOTZ is district manager of the Anchor Hocking Glass Corp. in Clayton, Mo.

JOHN P. ZIMMERLZ is employed by the E. E. Foundry Equipment Co., in Columbus, O.

STANLEY R. PALMER is technical writer in the department of electrical engineering for the National Cash Register Co. in Dayton, O. Mr. Palmer and his wife make their home in Kettering, O.

DAVID LODGE is a salesman for the Tappan Stove Co. in Columbia, Mo.

VIRGINIA HASKINS FUSCO is chairman of the language department at Solon High School in Solon, O. Mrs. Fusco expects to continue work on her master's degree at Western Reserve University studying dentistry.

JACK MILBY assumed the position in Chicago as head of the cost section in the accounting department at American Steel Foundries. His wife, the former ANN YAKSHEVICH, teaches a third grade class in the Hammond (Ind.) Public Schools.

TOKYO CHAPTER of the OU Alumni Association held a meeting at the Sanno Hotel, Tokyo, Japan, Jan. 14. The group, shown here, heard a talk by a security stock consultant and watched a color movie on travel in Japan. The next meeting has tentatively been set for April 8.

MARGARET A. STANFORD is a first lieutenant in the office of administration of the US Air Force in Lodn, France.

ROBERT R. WAGNER and his wife, CHLOE WODDARD WAGNER, '56, live in Washington, D. C.

JOSEPH N. ROSS is high school principal in Reynoldsburg, O.

RICHARD L. SEFTON is a commercial artist with Henderson Advertising Agency in Greenville, S. C.

DARRELL MUETHING is with WOSU in Columbus, O.

WILLIAM K. RUSSELL is instructor of instrumental and vocal music for the Kings-ton-Union School in Kingston, O.

JANET ELAINE MILLER received a masters degree in music literature from the University of Rochester this past summer.

CHARLES E. POSTON teaches vocal music at McKinley High School in Canton, O.

RALPH KLIESCH is a graduate assistant in photography at Ohio University.

MERVYN L. FALK, his wife, KAY LINE FALK, '56, and their daughter live in Muskegon, Mich. Mr. Falk is a speech and hearing therapist and his wife is a social worker there.

GEORGE POFFENBARGER II is a junior engineer for the United Fuel Gas Co. in Logan, W. Va.

JAMES SLOAN is a navigator and first lieutenant in the US Air Force. He is stationed in Langley, Va.

RICHARD W. OBERDIER, a purchasing buyer's assistant for Western Electric Corp., lives in Columbus, O.

DANIEL D. TURNER was appointed chief deputy engineer for Miami County.

JOHN E. DALTON, a buyer in the Akron plant of the B. F. Goodrich Co., resides with his wife, the former MARTHA LOU LUTTRICKS, '58, and their two children in Cuyahoga Falls, O.

JOHN G. BIER, is purchasing representative for Aluminum and Magnesium, Inc., in Sandusky. His wife, the former NANCY RUD, '57, is a medical technologist at Good Samaritan Hospital. They have a daughter, Sheryl Anne, 2 years old.

BARBARA HEARING WALDER, her husband and their daughter live in Columbus, O. Mrs. Walder teaches fifth grade in Hilliard, O.

ANDREW W. PERINE works for General Mills as operation controll manager. Mr. Perine and his wife, the former CAROL JEAN MULLER, '58, make their home in Des Moines, Ia.

ROBERT MATTHEWS and his wife live in Puerto Rico. Mr. Matthews is a lieutenant in the US Air Force and is stationed at Ramey Air Force Base in Puerto Rico.

JACK FALKNER is president of the Middletown Real Estate Salesmen's Association. Mr. Falkner is associated with Joe Lewis Real Estate in Middletown, O.

Three OU Graduates Meet In Germany

SEPARATE careers of three Ohio University graduates have crossed paths at Hahn Air Force Base in Germany recently.

Miss Maryanne Patterson, '59, Second Lieutenant Stanley Rodman, '59, and Dr. Dante DeAngelo, '54, are all located at Hahn.

Miss Patterson is program director at the base's Hi Flite service club. She came from Evreux, France, where she worked at another Air Force service club and attended the University of Paris for a year.

Rodman is director of the Information Office at Hahn and DeAngelo, a dentist at the base's dental laboratory.

In his position, Rodman oversees the compiling, editing and publishing of the base newspaper, the Hahn Hawk. Recently the paper won first place in category three competition for USAF newspapers. This is the third triumph for the paper.

Rodman is "taking the plunge into male domesticity" on March 26, 1961. He is planning to marry Penny Polychron, a graduate of Wilson College in Chambersburg, Pa.

Dr. DeAngelo presently is experimenting with sound as a form of anesthesia in dental surgery. He places a set of earphones on the patient's ears. The sound effectively blocks painful nerve waves to the brain and the patient can sit through a treatment relatively free of pain. DeAngelo tested 70 people in an experimental run and 75 per cent of the group considered it a complete success. He has been given the go ahead by the base dental officer to work with the equipment full time.

Married to the former Patricia Ann Zink, DeAngelo received his DDS degree from Ohio State University in June of 1958.

DR. DANTE DeANGELO practices dentistry in hi fi. He uses sound from a tape recorder to sooth the nerves of a patient. He is one of three Ohio University alumni located at Hahn Air Force Base in Germany.

AARON CUNNINGHAM is a Methodist Minister in Gordon, O.

LARRY GRUNWALB is a graduate assistant in mathematics at Ohio University. Mr. Grunwalb and his family live in Athens, O.

FRANK W. GILBERT and his wife, CYNTHIA C. YOUNG GILBERT, '57, reside in Sunbury, Pa. Mr. Gilbert is an instructor in the business department at Susquehanna University there.

LOIS PETTY KEEVER and her husband, Joseph, make their home in Bay Village, O.

ROBERT WOLFORD joined the Ironton-Lawrence Co., Department of Health. Mrs. Wolford, the former ALICE J. MORTON, '58, works for the Briggs-Lawrence Co. Public Library. Mr. and Mrs. Wolford live in Portsmouth.

ALEX J. BAKOS is supervisor of accounting for the Allstate Regional office in Shaker Hts., O. Mr. Bakos and his wife, the former CAROL ANN CRANE, live in Bedford, O.

ROLF ZERGES is working in the statistical department of the Eastman Kodak Co. Last summer Mr. Zerges received his MA degree in economics at Indiana University. Mr. and Mrs. Zerges and their new son live in Rochester, N. Y.

ROBERT W. SCHMEDING of Athens was appointed to the Wittenberg University faculty as an instructor in education.

GERNELDA M. KING of Cincinnati, O., is a teller in the savings department for the Southern Ohio National Bank in Cincinnati.

RONALD D. UPTON has been promoted to senior accountant with Arthur Andersen and Co., N. Y.

RAYMOND P. HEITLAND, an accountant with Arthur Andersen and Co., Cleveland, passed his Certified Public Accountant examination in May, 1960.

REV. FONTELLA LINN is editor of The Woman's Pulpit in Denver, Colo.

1958

LEON ERWIN HOFFER is a lieutenant in the US Navy and stationed in Chikaskia.

RICHARD CHIARI is advertising salesman for WTIX in New Orleans.

MARILYN A. MILLER is a music teacher in the Cleveland Public School system.

DIETRICH O. ORLON resides in Ann Arbor, Mich.

SARAH GILL SLATER is a teacher in Logan High School, Logan, O.

WILLIAM VANCE CLIPPINGER and his wife, the former CAROLYN GRAF, '59, live in Bloomington, Ind., where Mr. Clippinger is a graduate student at the University of Indiana.

WALTER FRANCIS ENMERT is a mortician in Somerset, O.

FRED T. BAIR is an accountant at the Fisher Body Co. in Mansfield, O.

JAMES MOYER is employed by the Ingersol-Humphreys division of Borg-Warner in Mansfield, O. Mr. Moyer just completed two years service in the Army, stationed in Germany.

JAMES F. SKUFCA lives in Cleveland, O., and is associated with the Murch and Co., Inc., as a stock broker.

RONALD F. MROCZKA was recently assigned to the 69th signal battalion at Fort George G. Meade, Md., as personnel specialist in the battalion's headquarters company.

JAMES E. HARTMAN is on the advertising staff of Good Housekeeping Magazine in N. Y.

Alumni Meet

COLUMBUS alumni entertained members of the press and Ohio University coaches at a meeting January 19 at Lincoln Lodge. Pat Collins, president of the chapter, presided, and Jim Crum served as master of ceremonies.

CINCINNATI meeting of alumni attracted a large crowd to Shuller's Wigwag January 25. Again, sports held the spotlight, with Bill Hess serving as principal speaker of the evening. Mr. and Mrs. Louis Andrews were co-chairmen.

GERALD L. BUSTER received his masters of social work degree from Washington University in St. Louis, Mo.

RICHARD A. BYRON is assistant engineer with the American Electric Power Co., Inc., of New York. Mr. Byron made an address on "Careers for Engineers in AEP System" at Canton, O., before a gathering of engineering educators from 26 mid-west engineering schools.

ROGER OLDS, a technical sales representative covering Ohio, Pennsylvania, New York and West Virginia for the Visking Company, a division of the Union Carbide Corp., has received the Distinguished Salesman's Award for the second year. He has been in that group ever since he started with the company in 1958. His home is in Erie, Pa.

CARL L. HARRIS, with the Boy Scouts of America, has been named district scout executive by the Put-Han-Sen Area Council of Kenton, O.

JOHN F. LENIHAN, procedure analyst in the accounting department of American Steel and Wire Division of USS in Joliet, Ill., his wife, the former BETSY BOLENDER, '59, and their son live in Joliet, Ill.

1959

EUGENE R. NAGY and his wife, Beverly J. Burk Nagy, '59, live in Richmond Hts., O. Mr. Nagy teaches at Collinwood High School in Cleveland, O.

JOAN HEIKKILA TAE RHEE is with the First City Bank in Seoul, Korea.

KAREN ENGETH is a graduate assistant in photography at Ohio University.

ANDREW TYLEK is a graduate assistant in photography at Ohio University.

GRANT LATIMORE is a member of the Addison Junior High School faculty in Cleveland, O.

HOWARD E. HOBSON, JR., is a captain in the US Army. He is stationed in Baltimore, Md.

GARY LEE STANSBERY is a junior in the college of law at Ohio State University, Columbus, O.

KENNETH FULTON is journalist for the Star-Free Press in Ventura, Calif.

FREDERICK JAMES CRALL is in the sales training program of the Tappan Stove Co. in Mansfield. Mr. Crall, his wife and their two daughters reside in Mansfield.

JOHN H. POLLOCK is employed by the Ohio Brass Co. in Mansfield, O.

PETER GRASSEL is quality control manager for the Ingersol-Humphreys division of Borg-Warner in Mansfield, O.

JACALYN BARR teaches first grade in Garfield Hts., O.

DONALD BLIZZARD, an electrical engineer, has successfully completed the graduate training course at Allis-Chalmers. He has been permanently assigned as an engineer in the control department in West Allis, Wis.

RANOLD S. SEYMOUR, a salesman for Allstate Insurance Co., lives in Chillicothe, O.

CONSTANCE JULLIANNA KRAS WHITE is editor of the Winter Park Edition of the Sentinal Star in Orlando, Fla.

GLENN A. FITCH BROOKS teaches third grade at Hebron Elementary School in Hebron, O.

1960

MARY JO DESANTIS MULLINS and her husband lives in Athens, O. Mrs. Mullins teaches third grade at York Elementary School in Buchtel, O.

at Winter Events

CLEVELAND alumni gathered January 17 at the Sheraton-Cleveland Hotel in honor of Football Coach Bill Hess and his staff. George Brown was toastmaster at the dinner affair. A Homecoming movie was shown.

CANTON was the scene of two alumni meetings in December when the Ohio University Bobcats won a holiday basketball tournament in that city. The meetings, following each game, were held at The Four Winds restaurant.

Look Ahead

ALUMNI can make reservations for non-voting tickets to the 1961 J-Prom dance to be held April 15.

Rex Wolfe, chairman of the event, announces that alumni wishing tickets may write him at 85 W. State St., Athens, O., or Beverly Hennen, publicity chairman, at Box 93, Center Dormitory, Athens, O., for reservations.

The tickets will be placed in envelopes and distributed at the main floor information desk in the Ohio University Center that weekend. Alumni may pay for them at that time.

Tickets will be \$3.50 per couple and entitle the holder to admission to the dance.

J-Prom will open this year with women's skits Thursday evening, April 13th, and men's skits Friday evening, April 14. Both are tentatively set to start at 5:30 p.m. A pre-prom concert Saturday afternoon will precede the dance that evening in the new Brandon T. Grover Center.

BART GILBERT, '60, has been promoted to notional sales manager of the Duron Corporation, manufacturer of Duron Permanent Mothproofing used by wool processors, in Bedford, O. Until recently he was Midwest district sales manager for the corporation. In his new capacity, Gilbert will be responsible for the expansion of sales activities and merchandising. He lives at 4153 Stillmore Road in South Euclid, O.

JAMES HORVATH, JR., teaches in Cleveland, O. Mr. Horvath and his wife, the former CAMILLA KASTEN, '60, live in Euclid, O.

J. RICHARD FRISBEE has been assigned junior engineer in the district industrial sales department of the Ohio Fuel Gas Co. Mr. Frisbee is a member of the American Society of Civil Engineers and Cambridge Elks Lodge 116, his wife and their daughter live in Cambridge, O.

JANET BROCK BELLER and her husband, Roger, live here in Athens. Mrs. Beller is juvenile probation officer for Athens.

MARILYN ELAINE OLWINE teaches in the Cleveland Public Schools.

LEASEN HOLMBERG CLARK teaches first grade in the Cleveland Public Schools. She lives in Parma Heights, O.

LOUIS R. ALEXANDER, JR., teaches mathematics in the Nelsonville High School, Nelsonville, O.

CLAUDIA JEAN CERNY, '62 to **PAUL MARTIN THESING**, '60 on November 30, in Euclid, O. Mr. Thesing is employed by the Wright-Patterson Research Center in Dayton, O.

MARILYN Jo FIDLER, '60 to **George M. Dawson** on September 10, in Chappaqua, N. Y.

Lynda Cerny to **CARL DILL**, '59 on June 18, 1960. The couple plan to make their home in Northfield, O.

Beverly Ann Aring to **JAMES W. MILLER**, '60 on December 17, in Cleveland Heights, O.

MARY LALOS, '59 to **WILLIAM JAMES COSTAS**, '59 on December 11, in South Euclid, O.

Marriages

MYRA EDELSTEIN, '60 to **MICHAEL DANIEL NEBEN**, '60 on September 10, in Belle Harbour, N.Y.

GRACE HELEN McDONALD, '60 to **LT. RICHARD H. FEAGLER**, '60 on September 10, in Cleveland, O.

JAYNE ANN JARVIS, '60 to **Francis Michael Poches** on August 27, in Glouster, O. Mrs. Poches teaches in the Whitehall school, a suburb of Columbus, O.

ANETTE LUSE, '59 to **FREDRICH W. WAGNER**, '60 on August 29, in Peoria, Ill. The couple will make their home in Fairview Park, O. The bride is a teacher in the Rocky River Schools of Rocky River, O. Her husband is associated with the Union Carbide Company of Cleveland, O.

Sandra Marie Casbarro to **CHARLES BERNARD WALTERS**, '60 on Sept. 10, in Lancaster, O.

LOIS JEANNE NETHERS, '60 to **John Francis Shaw, Jr.** on December 16, in Frazeysburg, O.

Kathryn Elizabeth Williams to **JACK C. KILLENBERGER**, '60 on December 10, in Kingston, O. Mr. Killenberger is presently with the US Air Force in the office of special investigation.

VIRGINIA J. JOHNSTONE, '60, is a Trans World Airlines hostess flying out of Los Angeles International Airport. She is residing in Santa Monica, California.

All Alumni in Europe!

OHIIO UNIVERSITY alumni in Europe are planning to arrange a meeting in May or June and are anxious to hear from any persons who might attend.

Anyone interested should contact one of the following two men for further details:

PATRICIA MARIE HURTT, '58 to Dale Edward Ledman on December 18, in Washington, C. H., O. Mrs. Ledman teaches in the Bellevue High School of Washington.

Jean A. Sloss to JERRY L. DUDGING, '58 on January 21, in St. Louis, Mo.

NOLA LOUISE RASOR, '57 to DAVID BRUCE KARR, '60 on December 17th, in Warren, O. Mrs. Karr is employed by the Youngstown Sheet and Tube Corporation in its Boardman office. Mr. Karr attends Kent University.

GAIL MARY BOYD, '58 to Edward George Hrivnak on December 23, in Lakewood, O. Mrs. Hrivnak teaches at Rocky River High School and attends Kent University.

SUSAN D. SCHAFER, '60 to GARY LEE VORE, '60 on December 18 in North Canton, O. Mrs. Vore is a teacher in the Dayton school system. Mr. Vore is a senior at Sinclair College and is employed in the cost department of Mayron Cornish Co. in Dayton.

Charla Schneider to JOHN C. KAISER, '59 on November 23, in Chillicothe, O. Mr. Kaiser is employed by the State Highway Department. The couple will make their home in Lake White, O.

MARGARET ANN WOLPERT, '60 to James Allen Haney, on July 30, in Amlin, O. Mrs. Haney is a teacher in Plain City. The couple will reside in Amlin, O.

HAILA JOANN ROBY, '60 to George William Wurtz on July 31, in Plain City, O. Mrs. Wurtz teaches in the Scioto Darby local school.

Patricia Winters to THOMAS E. SHANNON, '60, on September 3, in Newark, O. Mr. Winters is an instructor for OU in civil engineering and working toward his master's degree. They plan to make their home here in Athens.

MARY JEAN DAVIS, '56 to Joel M. Segal on December 21, in Brooklyn, N. Y.

Carole Ann Kistner to ROLAND C. VOLLMER, '60 on September 3, in Elyria, O. Mr. Vollmer is an architectural draftsman with the Sanymetal Products, Cleveland, O.

MARY ELIZABETH GOODING, '60 to Edwin Negus on September 10 in Cleveland, O.

J. RICHARD FRISBEE, '60, has been assigned as a junior engineer in the district industrial sales department of the Ohio Fuel Gas Co. at Cambridge, Ohio. He joined Ohio Fuel immediately after graduation from OU and has completed a company training program in Columbus. Mr. Frisbee and his wife, Donna, have a daughter Debra Jo, 3.

JOANNE DRISCOLL, '58 to Michael J. Joyce on January 28, in Lakewood, O.

CAROL ANN TOMLINSON, '59 to DANIEL PETERSEN HUFF, '60 on January 5 in Lima, O.

SHERRY LEE MCNEW, '58 to GLENN ROY CONKLIN, '60 on December 30, in Edgewater, Md. Mrs. Conklin is presently teaching at Vandalia Junior High School. Her husband is associated with Delco, Moraine Division of General Motors in Dayton. They will live in Vandalia, O.

Mary Louise Sipser to THOMAS M. POLEN, '56 on January 29 in Wade Park Manor, O.

Barbara Tremblay to ARTHUR HUNKINS, '60 on February 4, in Toledo, O.

MARY FLANNERY, '59 to RICHARD GILAM, '58 on December 23, in Dayton, O.

MARGARET JACQUELYN MCGLONE, '59 to John Robert Porter Jennings on January 29, in Athens, O. The couple will reside at 64 Morris Ave., Athens.

PATRICIA D. KEESSE, '60 to Rondle Arthur Hall on July 30, in Huntington, W. Va.

MARILYN D. RICHARDS, '59 to Norman T. Smith on October 1, in Cleveland, O. Mrs. Smith teaches english in the Rocky River Senior High School, Rocky River, O.

Mary Jo Hanley to THOMAS ANDREW MCCASKEY, '60 on November 26, in Gloucester, Mr. McCaskey is presently doing graduate work at Purdue University, Ind.

LEE A. SEABECK, '60, has completed the Cadet Engineering Training Course at Bailey Meter Company, Cleveland, and has been assigned to the company's product evaluation section of the product engineering department. The company manufactures industrial instruments and automatic controls for the power and process industries. Seabeck received his OU degree in electrical engineering.

New York, New York

NEW YORK, known to be the city of shining lights and big opportunities, has attracted several recent OU graduates to its flourishing journalism, business, theater and television districts.

Patricia Beckett, '60, has been in New York since last January working her way into the theater. Presently she is a part-time secretary for a Spanish book importing company. She was working as an usherette in Greenwich Village's Gate Theater but has since moved to the Circle in the Square where she is on the production staff of "The Balcony." Living in the lower east Sixties with two other OU alumnae, Louise Edmonson, '59, and Carol Retter, '60, Patsy says, "New York is wonderful."

Lou, originally from the Panama Canal Zone, is working as a secretary and eventually wants to get into the theater. Carol works at the Gate Theater and is hoping her musical talents will give her the "big break" before too long.

Larry Spiegel, '60, now assistant to the producer-director of the CBS public affairs division, has his eye on the top of the ladder and is hoping his job will someday take him to Hollywood. As a step in the right direction, Larry has been assisting with the Sunday television production of "Lamp Unto My Feet."

Bob Turk, '60, whom many may remember as a member of the vocal group from Ohio University, "The Four Winds," has not had the opportunity to further his musical experience since graduation. He has been quite busy at his job with Donald E. Degnan, a public relations firm in Manhattan.

Ed Pease, '60, shares a five-room apartment with three friends in Woodside, N.Y. on weekends and during the week lives in Poughkeepsie where he is an accountant with Price Waterhouse & Company.

Alumni Directors Hold Winter Parley

President Edgar Shoemaker presided at the winter meeting of the OU Alumni Association board of directors at the University Center February 18. Fifteen members of the board attended the meeting.

Alumni Secretary Marty Hecht presented the financial report, which was accepted by the group. He also introduced a guest, Myron Hutcheson, newly-appointed director of the OU Fund, who reported on his plans for

the remainder of the school year.

Others attending were Milt Taylor, '50, newest member of the board who represents the Association's athletic council; William H. Fenzel, treasurer; John W. Bolin; Charles S. Dautel; Robert L. Hartford; Gordon W. Herrold; Paul J. Hyme; D. Ben James; Richard O. Linke; Ruth Hacker Millhoff; Ross A. Sams; David N. Keller; and Dwight H. Rutherford, immediate past president.

Births

Wyll Chris to LARRY GRUNWALB, '57 and Mrs. Grunwalb (JOANNE LADD, '57) on December 3, in Athens, O.

Cynthia Susan to RICHARD HELKE, '57 and Mrs. Helke (SHIRLEY MILLER, '51) on November 11, in Oberlin, O.

Robert Charles to CHARLES SKELLY, '41 and Mrs. Skelly (EDNA M. ZIMMER, '41) on November 13, in Falls Church, Va.

Theresa Lynn to LARRY BUCKLES, '58 and Mrs. Buckles on December 24, in Logan, O.

David Edward Jr. to DAVID ALGEO, '53 and Mrs. Algeo (NANCY BOETTNER, '55) on December 9, in Washington, Pa.

Douglas McKenzie to Kenneth H. Dunlope and Mrs. Dunlope (JUDY WHERRY, '52) on August 18, in Dayton, O.

Ann Elizabeth to RICHARD T. CLARK, '58 and Mrs. Clark (NORMA JEAN HARMON, '58) on January 15, in Columbus, O.

Timothy Allen to DAVID BYERS, '51 and Mrs. Byers on January 20, in Columbus, O.

Heidi Lynn to Robert H. Walder and Mrs. Walder (M. BARBARA HEARING, '56) during the month of August in Hilliard, O.

Bruce Patrick to CARL F. CLEMENS, '55 and Mrs. Clemens on June 3, in Ontario, N. Y.

Carol Jane to FRANK DILLEY, '52 and Mrs. Dilley (JANE LONG, '52) on December 18, in Northampton, Mass.

Lauren Hilary to MARTIN BLAU, '48 and Mrs. Blau on December 16, in White Plains, N. Y.

Kathleen Jane to S/Sgt. Robert A. Cooper and Mrs. Cooper (QUINETTA BROWN, '53) during the month of September in Oberursel, Germany.

Andreu William, Jr. to ANDREU W. PERINE, '56 and Mrs. Perine (CAROL JEAN MULLER, '58) on January 13, 1959 in Des Moines, Iowa.

Peter Scott to MARTIN A. COHN, '56 and Mrs. Cohn in Englewood, N. J.

Sheryl Yvonne to Capt. Floyd A. Chambers and Mrs. Chambers (LYNDALL LEE WOOLEY, '53) in Japan.

Sue Ann to JOHN E. DALTON, '56 and Mrs. Dalton (MARtha LOU LITTRICK, '58) on November 20, in Cuyahoga Falls, O.

Mark David to David Whiting and Mrs. Whiting (NORMA JEAN FULLER, '52) on February 28, 1959 in Demarest, N. J.

Mary Elizabeth to Douglas Freeman and Mrs. Freeman (BEVERLY BITTNER, '59) on December 12, in Windsor, Ontario.

William Hall to ROLF ZERGES, '57 and Mrs. Zerges (ELLIE HALL, '57) on August 24, in Rochester, N. Y.

Gregory to JOHN F. LENIHAN, '58 and Mrs. Lenihan (BETSY BOLENDER, '59) on September 27, in Joliet, Ill.

Susan to JAMES HORVATH, JR., '60 and Mrs. Horvath (CAMILLA KASTEN, '60) on December 10, in Euclid, O.

David Michael to JOHN L. MIHELICK, '54 and Mrs. Mihelick (KATHRYN E. DENGLE, '54) on December 25, in Cuyahoga Falls, O.

Wesley Malcolm and Valerie Luray (twins) to ERNEST DUNN, '53 and Mrs. Dunn (HAZEL R. SMITH, '52) on May 28, in Cleveland, O.

Margaret Anne to Wilbert J. Kapp and Mrs. Kapp (CONSTANCE WIDES, '56) on January 13, in Pittsburgh, Pa.

Alumni Meet at Los Angeles Open

FOURSOME at the Los Angeles Open in January are Paul Linke, Richard O. Linke, '41; Ed Shoemaker, '26; and Tearing Pro Dow Finsterwald, '52. Linke's personal management firm, now based in Hollywood, is selling a television series, "Dow Finsterwald's Golf Tip of the Day." Shoemaker is national president of the OU Alumni Association. Paul Linke is Dick's son.

New Chapter Plans Big Start in Spring

ALUMNI living in the area of San Diego, Calif., gathered for the second time in December to make plans for an official chapter of the OU Alumni Association there. Twenty-seven attended the meeting, and Edgar Shoemaker, Glendale, Calif., national president of the Alumni Association, was a special guest.

The group made tentative plans for a big meeting this spring and for selecting a committee to select officers for the new chapter.

Those attending the December meeting were Robert and Vicki Bennett, Betty and Dick Wilson, Richard and Charlene Feester, Edward McKee, Frank and Ruth Szalay, Marvin Yerkey, Richard and Joy Green, Marcia and Tom Martin, Bruce Wesselman, Dean Howard, Howard and Laura Stiner, John and Victoria Green-smith, William J. and Helen Manning, and Mr. Shoemaker.

SAN DIEGO COMMITTEE members who planned the December meeting are, l to r, Kay Mereness, '41; Bill Manning, '39; Esther McGee, '41; Frank Szalay, '42; and Vicki Bennett, '49.

Stephen Michael to TONY ZACCAGNINI, '58 and Mrs. Zaccagnini on January 20, in Shadyside, O.

Mark Edward to WENDELL J. BOGNER, '51 and Mrs. Bogner on January 10, in Dayton, O.

Jill Ellen to DONALD W. SANTEE, '58 and Mrs. Santee (MELVA MINCK, '57) on April 18, in Wadsworth, O.

Connie Lynn to GEORGE DOOLITTLE, '57 and Mrs. Doolittle (PADDY JO LAMBERT, '58) of Berea on February 2.

John Douglas to WILLIAM L. HEINZ, '43 and Mrs. Heinz (MARILYN CUTTS, '45) on January 24, in Washington, O.

David Andrew to THOMAS K. ROGERS, '57 and Mrs. Rogers on November 30, in Warrensville Heights, O.

Jeanette Amelia Wagoner to JAMES D. HALL, '56 and Mrs. Hall (JEAN ANN NEWLAND, '56) on December 26, in Clearwater, Fla.

Lynne Ellen to MARTIN LENHARD, '59 and Mrs. Lenhard (JUDY JOHNSON, '61) on July 27, in Ft. Wayne, Ind.

Margaret Elizabeth to EDWARD A. TURNER, '51 and Mrs. Turner (PATRICIA O'BRIEN, '53) on July 11, in Elmhurst, Ill.

Jeanne to JOSEPH L. TORNATZKY, '50 and Mrs. Tornatzky on September 13, in Bay Village, O.

Jennifer Lynne to George T. Bumbu and Mrs. Bumbu (MARY JANE TAFLAN, '59) on September 9, in Warren, Ohio.

Jeffrey Scott to JACK N. BETTS, '52 and Mrs. Betts on October 3, in Newark, O.

Jan Elizabeth to DAVID L. JONES, '57 and Mrs. Jones (ELLEN L. TULLIS, '57) on December 31, in Brookfield, Ill.

Bettina Anne to FRED T. BAIR, '58 and Mrs. Bair during the month of August in Mansfield, O.

Deaths

DORIS MORTON SHETTER, '28, daughter of former Ohio University professor, J. R. Morton, died October 1, 1960, in Charleston, W. Va. An honor member of the Ohio Alumni Association, Mrs. Shetter is survived by her husband, Egbert, '28, vice president of Union Carbide Olefins Co. and an Ohio University board member. Also she is survived by a daughter, Virginia Snyder, '54; her mother, Mrs. J. R. Morton; two sisters, Emma Trace, '32, and Frances O'Neill, '30; and two grandsons.

JULIAN M. SNYDER, '22, died January 6 in Norwalk Hospital, Norwalk, Conn., at the age of 62 years. He was vice president of Cunningham & Walsh, Inc., a New York advertising agency. He also was vice president and director of the Bell Island Improvement Association. Surviving him are his wife, Virginia; his mother, Mrs. Jennie S. Snyder; and six children.

INA SEGOY KAUFFMAN, '14, a native of Athens, died in West Milton New Year's Day. She was supervisor of music in the Lancaster schools and responsible for the organizing of the first uniformed marching band at Lancaster High School in 1924. Mrs. Kauffman is survived by her husband, H. C. Kauffman, and one brother, C. W. Segoy of Troy.

MARY SHIELDS HURDLEY, '15, died July, 1960. Last known, she was living in Youngstown, O. Her hometown was Crooksville and she graduated from Ohio University with a degree in elementary education.

HARRY VAN CUREN, '29, died December 24 in a Cleveland hospital after suffering a heart attack. A native of Hocking County, he taught in Logan and Hocking County schools for six years, then went to Cleveland where he taught in Thomas Edison school for six years and Nathan Hale school for 27 years. He leaves his wife, Dorothy; four sisters; and two brothers.

WILLIAM M. JERLES, '27, died December 6 in Aultman Hospital in Canton following an illness of 10 days and several years of failing health. He retired from teaching at Lehman High School in Canton in 1957 after 30 years there. Survivors include his wife, Ruth; two daughters; his father, Homer L. Jerles, of Niles; a sister; and five grandchildren.

EDWIN E. PALMER, '25, a football and basketball star at Ohio University in the early 1920's, was killed December 25 in a two-car crash. Palmer and his wife were on their way to Christmas dinner at the home of Wallace Munn, Mrs. Palmer's brother, in Newbury. Mrs. Palmer survived injuries.

DOROTHY BISHOP WIKOFF, '24, retired Middletown school teacher and Girl Scout leader, died January 5 in Middletown Hospital after suffering a heart attack at her home Christmas eve. She is survived by her husband, James G. Wikoff; son, James, Jr., a senior at Ohio University; and three brothers.

RUTH ADELINE SINDLINGER, '31, widely known Red Cross and social worker, died January 3 in St. Elizabeth Hospital in Youngstown. At her death Miss Sindlinger was a field representative for the Red Cross in Pennsylvania. She had been active for years in the Trumbull County Red Cross and lived in Warren, O.

JANE THOMAS KNAPPENBERGER, '25, died in the Trumbull County Hospital January 16 following a four-month illness. A prominent clubwoman in Warren, Mrs. Knappenberger was instrumental in the organization of the League of Women Voters and the American Association of University Women and active in the Red Cross there. Surviving her are her husband, Dr. Moses T. Knappenberger; two sons, Sam and George; a sister; and two brothers.

PATRICIA COLLETTE CLARK, 61, died January 7 in Good Samaritan Hospital in Zanesville. Miss Clark failed to resume her studies at Ohio University after a heart attack last spring and was admitted to the hospital for treatment December 30. Surviving her are her step-father and her mother, Morgan County State Rep. and Mrs. Kenneth C. Beckwith; maternal grandmother, Mrs. Garnet Anderson; paternal grandmother, Mrs. Clara Shepard Clark and an aunt, Mrs. Kathryn Oberholzer, with whom she made her home in Zanesville.

GWENDOLYN EDWARDS SNYDER, '26, died January 21 in her home following a year's illness. A lifetime resident of Mineral City, she formerly taught at Pleasant Valley, Walnut Creek and Stonecreek Schools. Mrs. Snyder is survived by her husband, C. W. Snyder; one daughter, Mrs. Kalwey Joynson; her mother, Mrs. Catherine Edwards; a sister and two grandchildren.

WILLIAM HUNTER HAFEEY, '07, owner of Manufacturers Products Co.-Manufacturers Brokers, died recently. He was living in Fremont, O.

D. WARD FORREST, '16, died February 3 at the age of 65. He was former owner and president of Forrest Towel Supply Co. in Columbus. He is survived by his wife, the former Nellie Belle Andrews, '16.

SARAH MEREDITH COLBERT, '27, a native of Glouster, O., died February 13 at her home after a long illness. A school teacher for nine years in the Glouster schools until health forced her to retire in October, 1960. Mrs. Colbert is survived by her husband, Lawrence; two daughters, Mrs. Susan Tompkins and Carolyn; two sons, Larry, a junior at Ohio University, and Phillip; one sister; a brother and two grandchildren.

JOSEPHINE CALDWELL STOUT, '05, died at the home of her son, Dr. Claire Stout, in West Milton in the evening of December 25. She had lived in Dayton most of her married life where her husband, Dr. Jerome J. Stout, had practiced until his death in 1938. Aside from her son, Claire, she is survived by a daughter, Katharine, and a brother.

on the green

J-PROM Criteria Will Change, Royalty Emphasis on Popularity." The largest all-campus weekend at Ohio University is already breaking into the headlines of the OU Post. The Campus Affairs Committee accepted changes in voting to a point system where the king and queen will be chosen 50 percent by popular vote and the other 50 percent by the judges' evaluation of poise, personality and interview.

DR. FAWCETT WITH PRESIDENT BAKER Dr. Novice G. Fawcett, president of Ohio State University, highlighted the culmination of first semester, 1960-61, at Ohio University January 28. Fawcett spoke on "Education: A Mandate for Responsible Education." THE NEW SEMESTER began minus some 350 students who failed to return because of scholastic difficulties. Enrollment was reported at 7450, a drop from the 8041 of last semester, but a rise of 245 over second semester of the 1959-60 school year EARTH-MOVING WAS INITIATED at the site of the new West Green on announcement of approval of a \$2,975,000 loan for dormitory construction at OU. University officials hope to have the first dormitory completed a year from now MUSICAL OFFERINGS since December have featured renowned Gospel Singer Mahalia Jackson and the famed Paganini and Julliard String Quartets. Mahalia Jackson sang to a capacity crowd February 10 and the string quartets were features of the Ohio University Chamber Music Series in January and February IN FACULTY BRIEFS: *Ralph F. Beckert*, professor of accounting, was named national chairman of the membership committee of the American Accounting Association in January. *Paul D. Brandes*, associate professor of dramatic art and speech, was elected national executive secretary-treasurer of the forensic honor society, Tau Kappa Alpha, and named to an editorial board of the annually published *Speech Monographs* of the Speech Association of America. *William Chase*, assistant professor of education, spent two weeks in January in Nigeria reviewing the teacher-training project Ohio University is conducting there. He is campus coordinator for the project.

Earlier announcements told that the dance will be held in one place: the new Grover Center. The big weekend is April 13, 14 and 15 GRADUATION OF 254, including two doctoral candidates, and an address by

Donald R. Clippinger, dean of the graduate college, spoke on graduate study and research at the initial session of the ninth annual Engineering Colloquium at Ohio University in February. *Roy P. Fairfield*, associate professor of government, had his book, "The Federalist Papers," published by Doubleday in its Anchor paperback series. It went on sale in January. *Albert C. Gubitz*, dean of the branch colleges, appeared before a committee of the West Virginia Legislature in February to explain the branch system of Ohio University. *Raymond H. Gusterson*, associate professor of government, spoke on "Parties, Politics and the Presidency" in January for the sixteenth annual Faculty Lecture Series. **NEW APPOINTMENTS:** Myron A. Hutcheson, director of student financial aids, was named director of the Ohio University Fund, Inc., to replace Richard L. Bitters who was killed in the tragic air collision over New York December 16. Dr. Elizabeth B. Stanton is assuming duties as director of the University Extension and Correspondence Division. She will continue to teach as an assistant professor in English. Professor W. H. Reininga and William H. Fichthorn were appointed new chairmen of the accounting and finance departments in accordance with the university's periodic rotation policy. Also under the policy came changes in the chairmanship of the philosophy and history departments. Dr. Carl G. Gustavson replaced Dr. John F. Cady in the history department and Dr. Idus Murphee replaced Dr. Troy Organ in the philosophy department . . . AN ANONYMOUS DONOR gave \$2,000 to the OU Fund, Inc., for use as graduate student aid. In a note from the Pittsburgh National Bank it said the gift was "a repayment of aid given by the University to our customer as a graduate student." . . . TEN NATIONAL DEFENSE FELLOWSHIPS were allocated to Ohio University for the coming school year, 1961-62: four in physics, two in chemistry, two in speech and two in elementary education. The university administered the same number for the present school year THE ACCOUNTING DEPARTMENT at OU is \$1500 richer. It received \$1000 from the Price Waterhouse Foundation and \$500 from the Arthur Young and Company Foundation recently for aid in accounting education, possibly in the form of a scholarship or loan to a student in accounting .
